PART II – Descriptive Questions (70 Marks)

1. **(a)** **(i)** As per AS 4‘Contingencies and Events Occurring After the Balance Sheet Date’, disclosure should be made in the report of the approving authority of those events occurring after the balance sheet date that represent material changes and commitments affecting the financial position of the enterprise, the investment of ₹ 40 lakhs in April, 2024 in the acquisition of another company should be disclosed in the report of the Board of Directors to enable users of financial statements to make proper evaluations and decisions.

(ii) As per AS 4, adjustment to assets and liabilities are required for events occurring after the balance sheet date that provide additional information materially affecting the determination of the amounts relating to conditions existing at the Balance Sheet date. A debtor for ₹ 2,50,000 suffered heavy loss due to earthquake in the second week of March, 2024 which was not covered by insurance. This information with its implications was already known to the company. The fact that he became bankrupt in May, 2024 (after the balance sheet date) is only an additional information related to the existing condition on the balance sheet date. Accordingly, full provision for bad debts amounting ₹ 2,50,000 should be made, to cover the loss arising due to the insolvency of a debtor, in the final accounts for the year ended 31st March 2024.

(iii) As per AS 4, adjustments to assets and liabilities are required for events occurring after the balance sheet date that provide additional information materially affecting the determination of the amounts relating to conditions existing at the balance sheet date. In the given case, since Hari Ltd. was sued by a competitor for infringement of a trademark during the year 2023-24 for which the provision was also made by it, the decision of the Court on 26th May, 2024, for payment of the penalty will constitute as an adjusting event because it is an event occurred before approval of the financial statements. Therefore, Hari Ltd. should adjust the provision upward by ₹ 4 lakhs to reflect the award decreed by the Court to be paid by them to its competitor.

(iv) As the embezzlement of cash comes to the notice of company management only after approval of financial statements by board of directors of the company, then the treatment will be done as per the provisions of AS 5 "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies" and the same will not be adjusted in the financial statements for the year ended 31st March, 2024. This being an extra-ordinary item should be disclosed in the statement of profit and loss as a part of loss for the year ending March, 2025, in a manner, that its impact on current profit or loss can be perceived.

(v) Collection of cheques after balance sheet date is not an adjusting event even if the cheques bear the date of 31st March. Recognition of cheques in hand is therefore not consistent with requirements of AS 4. Moreover, the collection of cheques after balance sheet date does not represent any material change or commitments affecting financial position of the enterprise and no disclosure of such collections in the Directors' Report is necessary.

(b) As per AS 26 'Intangible Assets'

(i) Carrying value of intangible asset as on 31.03.2023

At the end of financial year, on 31st March 2023, the production process will be recognized (i.e. carrying amount) as an intangible asset at a cost of ₹ 30 (98-68) lacs (expenditure incurred since the date the recognition criteria were met, i.e., from 1st January, 2023).

(ii) Expenditure to be charged to Profit and Loss account for the year ended 31.03.2024

3. (a) (i) As per AS 9 "Revenue Recognition", in case of goods sold on approval basis, revenue should not be recognized until the goods have been formally accepted by the buyer or the buyer has done an act adopting the transaction or the time period for rejection has elapsed or where no time has been fixed, a reasonable time has elapsed. Therefore, revenue should be recognized for the total sales amounting ₹ 5,00,000 as the time period for rejecting the goods had expired.

(ii) The sale is complete but delivery has been postponed at buyer's request. The entity should recognize the entire sale of ₹ 2,40,000 for the year ended 31st March.

(iii) Sale/repurchase agreements i.e. where seller concurrently agrees to repurchase the same goods at a later date, such transactions that are in substance a financing agreement, the resulting cash inflow is not revenue as defined and should not be recognized as revenue. Hence no revenue to be recognized in the given case.

(iv) Revenue arising from the use by others of enterprise resources yielding interest and royalty should be recognized when no significant uncertainty as to measurability or collectability exists. The interest should be recognized on time proportion basis taking into account the amount outstanding and rate applicable. The royalty should be recognized on accrual basis in accordance with the terms of relevant agreement.

(v) 40% goods lying unsold with consignee should be treated as closing inventory and sales should be recognized for ₹ 2,40,000 (60% of ₹ 4,00,000). In case of consignment sale revenue should not be recognized until the goods are sold to a third party.

Working Notes:

1. Calculation of purchase consideration

	₹
Equity shareholders of B Ltd. (80,000 x ₹ 10)	8,00,000
Preference shareholders of B Ltd. (5,00,000 x 115%)	5,75,000
Purchase consideration would be	13,75,000

2. Amount to be adjusted from general reserve

The difference between the amount recorded as share capital issued and the amount of share capital of transferor company should be adjusted in General Reserve.

Thus, General reserve will be adjusted as follows:

	₹
Purchase consideration	13,75,000
Less: Share capital issued (₹ 7,20,000 + ₹ 5,00,000)	(12,20,000)
Amount to be adjusted from general reserve	1,55,000

3. **Calculation of balances of Profit & Loss and Sundry Creditors of B Limited to be taken over by A Limited**

	P&L (₹)	Creditors (₹)
Balance as per Balance Sheet of B Limited	1,92,000	2,04,000
Less / Add: Contingent Trade Payable treated as Actual Liability	(72,000)	72,000
Taken by A Limited	1,20,000	2,76,000

6. (a) Yes, one of the characteristics of financial statements is neutrality. To be reliable, the information contained in financial statement must be neutral, that is free from bias. Financial Statements are not neutral if by the selection or presentation of information, the focus of analysis could shift from one area of business to another thereby arriving at a totally different conclusion on the business results.

Certain changes have been made in Ind AS considering the economic environment of the country, which is different as compared to the economic environment presumed to be in existence by IFRS. These differences are due to differences in economic conditions prevailing in India. These differences which are in deviation to the accounting principles and practices stated in IFRS, are commonly known as 'Carve-outs'. Additional guidance given in Ind AS over and above what is given in IFRS, is termed as 'Carve in'.

(b) As per provisions of AS 29 "Provisions, Contingent Liabilities and Contingent Assets", where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement should be recognized when, and only when, it is virtually certain that reimbursement will be received if the enterprise settles the obligation. The reimbursement should be treated as a separate asset. The amount recognized for the reimbursement should not exceed the amount of the provision.

It is apparent from the question that the company had not made provision for warranty in respect of certain goods considering that the company can claim the warranty cost from the original supplier. However, the provision for warranty should have been made as per AS 29 and the amount claimable as reimbursement should be treated as a separate asset in the financial statements of the company rather than omitting the disclosure of such liability. Accordingly, it can be said that the accounting treatment adopted by the company with respect to warranty is not correct.

(c) Goods are marked on invoice price to achieve the following objectives:

(i) To keep secret from the branch manager, the cost price of the goods and profit made, so that the branch manager may not start a rival and competitive business with the concern; and

(ii) To have effective control on stock i.e. stock at any time must be equal to opening stock plus goods received from head office minus sales made at branch.

(iii) To dictate pricing policy to its branches, as well as save work at branch because prices have already been decided.
