

AUDIT OF BANKS

LEARNING OUTCOMES

After studying this chapter, you would be able to:

- ◆ Understand the legal framework for the Bank audit.
- ◆ Gain the knowledge of financial statements of the banks in brief.
- ◆ Understand the audit approach for items of profit and loss in case of banks.
- ◆ Learn the important items such as Advances, NPAs etc. in the context of Bank Audit
- ◆ Understand practicality of above concepts by studying through examples and case studies

CHAPTER OVERVIEW

Sameer was very comfortable with mobile banking app and used to do most of his banking activities from this very app. Payments of house electricity bills, Wi-fi rental bill, payments of little gifts for her mother and younger sister were all made by him using his mobile. Whenever he needed to transfer money to any of his friends as common contribution for an evening get together, he used to send money through UPI using Bhim app.

One day, he happened to visit local branch of the bank in which his account was maintained. He got a feeling that banking operations are very complex and not as simple as he used to think. Since cash deposit machine was out of order on that day, he had to deposit cash by going to the counter. It made him realise that there is a trail for every bank transaction.

Huge volume of bank transactions take place instantly, moneys are deposited and withdrawn from accounts. One can access one's account from any geographical location. Banks work on "*Core Banking Solution*" platforms which make transactions to happen on such a scale by ensuring customer ease. Deliberating upon it, he also thought about processes, controls and automation which makes all this possible.

He was trying to understand broad working of a bank. A bank accepts deposits from its customers and lends money to trade, industry, farmers, needy sections of society and to members of general public. The rate at which a bank pays interest on deposits to customers is lower than the rates at which it charges interest on advances. The spread is used to meet establishment and administrative costs of a bank leaving out profits. In making available money to different sections of society including trade and industry, banks act as drivers of economic growth of country.

Lending of money by a bank leads to reflection of "assets" in form of advances in financial statements of a bank. He had heard the term "non-performing assets" (NPAs) quite a number of times. What do these denote and what is their significance from the point of view of an auditor? Are there some regulatory norms relating to NPAs? Meanwhile, his attention also moved towards encompassing outreach of audit in case of banks. Audit of banks appeared to be special because of huge volume of transactions, extensive use of technology, wide geographical spread of banks and other factors peculiar to banks. Excited, he was thinking of prospects to conduct audit of a bank some day in future!

INTRODUCTION

Banking sector is the backbone of any economy as it is essential for sustainable socio-economic growth and financial stability in the economy. The banking sector is also crucial as it deals with mammoth amounts of public monies and is highly sensitive to reputational risk. Like all economic activities, the banking sector is also exposed to various risks in its operations. It is of utmost importance to ensure that banking sector stays healthy, safe and sound. For safe and sound banking sector, one of the most important factors is reliable financial information supported by quality bank audits.

Types of Banks

There are different types of banking institutions prevailing in India which are as follows:

Commercial Banks	Regional Rural Banks
Co-operative Banks.	Payment Banks.
Development Banks (more commonly known as 'Term-Lending Institutions').	Small Finance Banks.

1. Commercial banks are the most wide spread banking institutions in India, that provide a number of products and services to general public and other segments of economy. Two of its main functions are:-

- (a) accepting deposits and
- (b) granting advances.

2. Regional Rural Banks known as **RRBs** are the banks that have been set up in rural areas in different states of the country to cater to the basic banking and financial needs of the rural communities. **Examples are:-** Punjab Gramin Bank , Tripura Gramin Bank , Allahabad UP Gramin Bank , Andhra Pradesh Grameen Vikas Bank, etc.

3. Co-operative Banks function like Commercial Banks only but are set up on the basis of Cooperative Principles and registered under the Cooperative Societies Act of the respective state or the Multistate Cooperative Societies Act and usually cater to the needs of the agricultural and rural sectors. **Examples are :-** The Gujarat State Co-operative Bank Ltd., Chhatisgarh Rajya Sahakari Bank Maryadit, etc.

4. Payments Banks are a new type of banks which have been recently introduced by RBI. They are allowed to accept restricted deposits but they cannot issue loans and credit cards. However, customers can open Current & Savings accounts and also avail the facility of ATM cum Debit cards, Internet-banking & Mobilebanking. **Examples are :-** Airtel Payments Bank , India Post Payments Bank, Paytm Payments Bank , etc.

5. Development Banks had been conceptualized to provide funds for infrastructural facilities important for the economic growth of the country. **Examples are:-** Industrial Finance Corporation of India (IFCI), Industrial Development Bank of India (IDBI), Small Industries Development Bank of India (SIDBI) , etc.

6. **Small Finance Banks** have been set up by RBI to make available basic financial and banking facilities to the unserved and **unorganised** sectors like small marginal farmers, small & micro business units, etc. **Examples are:-** Equitas Small Finance Bank , AU Small Finance Bank , etc.

Reserve Bank of India: Regulating Body

The functioning of banking industry in India is regulated by the Reserve Bank of India (RBI) which acts as the Central Bank of our country.

RBI is responsible for :-

- ◆ development and supervision of the constituents of the Indian financial system (which comprises banks and non-banking financial institutions)
- ◆ determining, in conjunction with the Central Government, the monetary and credit policies keeping in with the need of the hour.
- ◆ regulating the activities of commercial and other banks

Important functions of RBI are :-

- ◆ issuance of currency;
- ◆ regulation of currency issue;
- ◆ acting as banker to the central and state governments; and
- ◆ acting as banker to commercial and other types of banks including term-lending institutions. Besides, RBI has also been entrusted with the responsibility of regulating the activities of commercial and other banks.

No bank can commence the business of banking or open new branches without obtaining license from RBI. The RBI also has the power to inspect any bank.

Independent audit of financial statement of banks is important for a healthy, safe and sound banking system.

Banking Operations - Conducted only at Branches

Banking operations are conducted only at the branches, while other offices act as controlling authorities or administrative offices that lay down policies, systems and internal control procedures for conduct of business, in compliance with the statutory/ regulatory impositions and in compliance of accepted accounting principles and practices that cover all transactions and economic events. These controlling/ administrative offices also stipulate the delegation of powers and fix responsibilities and accountability and these are involved generally in effective supervision, monitoring and control over the business activities and operations, including seeking faithful compliance of the bank's laid down policies/ procedures/controls and deal with deviations therefrom.

Regulatory Framework

Banking Regulation Act, 1949.	State Bank of India Act, 1955.
Companies Act, 2013.	
Banking Companies (Acquisition and Transfer of Undertakings) Act, 1970.	
Regional Rural Banks Act, 1976.	
Banking Companies (Acquisition and Transfer of Undertakings) Act, 1980.	
Information Technology Act, 2000.	Prevention of Money Laundering Act, 2002.
Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002.	

Credit Information Companies Regulation Act, 2005.
Payment and Settlement Systems Act, 2007.

Besides, the above enactments, the provisions of the Reserve Bank of India Act, 1934, (RBI Act) also affect the functioning of banks. The RBI Act gives wide powers to the RBI to give directions to banks which also have considerable effect on the functioning of banks.

Peculiarities involved:

- ❑ Huge volumes and complexity of transactions;
- ❑ Wide geographical spread of banks' network;
- ❑ Large range of products and services offered;
- ❑ Extensive use of technology;
- ❑ Strict vigilance by the banking regulator etc.

Types of Bank Audit Reports to be issued (generally):

Presently, the Statutory Central Auditors (SCAs) have to furnish the following reports in addition to their main audit report:

- (a) Report on adequacy and operating effectiveness of Internal Controls over Financial Reporting in case of banks which are registered as companies under the Companies Act in terms of Section 143(3)(i) of the Companies Act, 2013 which is normally to be given as an Annexure to the main audit report as per the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.
- (b) Long Form Audit Report. (LFAR)
- (c) Report on compliance with SLR requirements.
- (d) Report on whether the treasury operations of the bank have been conducted in accordance with the instructions issued by the RBI from time to time.
- (e) Report on whether the income recognition, asset classification and provisioning have been made as per the guidelines issued by the RBI from time to time.
- (f) Report on whether any serious irregularity was noticed in the working of the bank which requires immediate attention.

- (g) Report on status of the compliance by the bank with regard to the implementation of recommendations of the Ghosh Committee relating to frauds and malpractices and of the recommendations of Jilani Committee on internal control and inspection/credit system.
- (h) Report on instances of adverse credit-deposit ratio in the rural areas.

1. UNDERSTANDING OF ACCOUNTING SYSTEM IN BANKS

From the time that customers had to physically visit and deal with a bank, there is a sea change in banking as use of technology and its continuous evolution has enabled banks to reach their customers in providing them the convenience and comfort of *anytime-anywhere-banking* by letting them access their information/data on real time basis, as stored in a safe and secure environment on the bank's servers. With many customers having access to Internet and mobile connectivity, monetary transactions from inception to finish have become expeditious through E-banking; but for Core banking technology and extensive advancement therein and the availability and extensive use of technology tools, banks could not have achieved such phenomenal and accelerated growth, and could not have ventured into and offered a wide range of innovative products and services to their customers. The transactions in banks have become voluminous and it needs to be ensured that in the system of recording, transmission and storage of information/ data, integrity thereof is optimally maintained and control systems ensure that the same is free of errors, omissions, irregularities and frauds. Considering the challenges of technology, bank managements continuously endeavor to make their internal control systems robust, safe and secure as well as convenient and expeditious for the customers.

In the computerized environment, it is imperative that the auditor is familiar with and satisfied that all the norms/parameters as per the latest applicable RBI guidelines are incorporated and built into the system that generates information/data having a bearing on the classification/ provisions and income recognition. The auditor should not go by the assumption that the system generated information is correct and can be relied upon without evidence that demonstrates that the system driven information is based on the required parameters. He should use Professional Skepticism and Prudence wherever he feels

that something manually needs to be performed to check the authenticity and consistency of the information obtained from the systems and document the results of such activities performed.

2. BANK AUDIT APPROACH

1. **Drawing an Audit Plan:** An audit plan should be drawn up based on :-
 - ♦ the nature and level of operations,
 - ♦ nature of adverse features,
 - ♦ level of compliance based on previous reports and
 - ♦ audit risks based on inadequacy in or breach of internal controls and the familiarization exercise carried out,
2. **Control Environment at the Bank:** A bank should have appropriate controls to mitigate its risks, including effective segregation of duties (particularly, between front and back offices), accurate measurement and reporting of positions, verification and approval of transactions, reconciliation of positions and results, setting up limits, reporting and approval of exceptions, physical security and contingency planning.

The following are certain common questions /steps, which have to be kept in mind while undertaking/ performing control activities:

Nature of Questions	Questions to be considered / answered
Who	☐ Who performs the control? ☐ Does the above person have requisite knowledge and authority to perform the control?
What	☐ What evidence is available to demonstrate /prove that the control is performed?
When	☐ When and with what frequency is the control performed? ☐ Is the frequency enough to prevent, detect and correct risk of material misstatements?

Where	☐ Where is the evidence of performance of the control retained? ☐ For how long is the evidence retained? ☐ Is the evidence accessible/ available for audit?
Why	☐ Why is the control being performed? ☐ What type of errors are prevented or detected through the performance of the control?
How	☐ How is the control performed? ☐ What are the control activities? ☐ Can these activities be bypassed? ☐ Can the bypass, if any, be detected? ☐ How are exceptions / deviations resolved on identification? ☐ What is the time frame for resolving the exceptions / deviations?

3. Engagement Team Discussions: All personnel performing an engagement, including any experts contracted by the firm in connection with that engagement are known to be the "*Engagement Team*". The engagement team should hold discussions to gain better understanding of the bank and its environment, including internal control, and also to assess the potential for material misstatements of the financial statements. All these discussions should be appropriately documented for future reference. The discussion between the members of the engagement team and the audit engagement partner should be done on the susceptibility of the bank's branch financial statements to material misstatements. These discussions are ordinarily done at the planning stage of an audit.

The engagement team discussion ordinarily includes a discussion of the following matters:

- (a) Errors that may be more likely to occur;
- (b) Errors which have been identified in prior years;
- (c) Method by which fraud might be perpetrated by bank personnel or others within particular account balances and/or disclosures;
- (d) Audit responses to Engagement Risk, Pervasive Risks, and Specific Risks;
- (e) Need to maintain professional skepticism throughout the audit engagement;

- (f) Need to alert for information or other conditions that indicates that a material misstatement may have occurred (e.g., the bank's application of accounting policies in the given facts and circumstances).

Advantages of such a discussion :-

- ◆ Specific emphasis should be provided to the susceptibility of the bank's financial statements to material misstatement due to fraud, that enables the engagement team to consider an appropriate response to fraud risks, including those related to engagement risk, pervasive risks, and specific risks.
- ◆ It further enables the audit engagement partner to delegate the work to the experienced engagement team members, and to determine the procedures to be followed when fraud is identified.
- ◆ Further, audit engagement partner may review the need to involve specialists to address the issues relating to fraud.

3. INCOME RECOGNITION POLICY

The policy of income recognition should be objective and based on record of recovery rather than on any subjective considerations. Income from non-performing assets (NPA) is not recognized on accrual basis but is booked as income only when it is actually received. *(Dealt in detail later on)*

4. FORM AND CONTENT OF FINANCIAL STATEMENTS

Sub-sections (1) and (2) of Section 29 of the Banking Regulations Act, 1949 deal with the form and content of financial statements of a banking company and their authentication. These sub-sections are also applicable to nationalised banks, State Bank of India, and Regional Rural Banks.

Every banking company is required to prepare a Balance Sheet and a Profit and Loss Account in the forms set out in the Third Schedule to the Act or as near thereto as the circumstances admit. Form A of the Third Schedule to the Banking Regulation Act, 1949, contains the form of Balance Sheet and Form B contains the form of Profit and Loss Account.

Every banking company needs to comply with the disclosure requirements under the various Accounting Standards, as specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules 2014, in so far as they apply to banking companies or the Accounting Standards issued by the ICAI.

5. AUDIT OF ACCOUNTS

Sub-section (1) of section 30 of the Banking Regulations Act, 1949 requires that the balance sheet and profit and loss account of a banking company should be audited by a person duly qualified under any law for the time being in force to be an auditor of companies.

6. ELIGIBILITY, QUALIFICATIONS AND DISQUALIFICATIONS OF AUDITOR

Applicable as to a Company Auditor

7. APPOINTMENT OF AUDITOR

As per the provisions of the relevant enactments:-

- ◆ The auditor of a banking company is to be appointed at the annual general meeting of the shareholders,
- ◆ The auditor of a nationalised bank is to be appointed by the bank concerned acting through its Board of Directors.
(In either case, approval of the Reserve Bank of India is required before the appointment is made.)
- ◆ The auditors of regional rural banks are to be appointed by the bank concerned with the approval of the Central Government.

8. REMUNERATION OF AUDITOR

- (a) The remuneration of auditor of a banking company is to be fixed in accordance with the provisions of Section 142 of the Companies Act, 2013 (i.e., by the

company in general meeting or in such manner as the company in general meeting may determine).

- (b) The remuneration of auditors of nationalised banks and State Bank of India is to be fixed by the Reserve Bank of India in consultation with the Central Government.

9. POWERS OF AUDITOR

The auditor of a banking company, nationalised bank, State Bank of India, or regional rural bank has the same powers as those of a company's auditor in the matter of access to the books, accounts, documents and vouchers.

10. AUDITOR'S REPORT

In the case of a nationalised bank, the auditor is required to make a report to the Central Government in which he has to state the following:

- (a) whether, in his opinion, the financial statements present a true and fair view of the affairs of the bank and in case he had called for any explanation or information, whether it has been given and whether it is satisfactory;
- (b) whether or not the transactions of the bank, which have come to his notice, have been made within the powers of that bank;
- (c) whether or not the returns received from the offices and branches of the bank have been found adequate for the purpose of his audit; and
- (d) any other matter which he considers should be brought to the notice of the Central Government.

The report of auditors of State Bank of India is also to be made to the Central Government and is almost identical to the auditor's report in the case of a nationalised bank.

10.1 Format of Report

The auditors, central as well as branch, should also ensure that the audit report issued by them complies with the requirements of Standards on Auditing discussed in Chapter 8 on Audit Report. The auditor should ensure that not only information

relating to number of unaudited branches is given but quantification of advances, deposits, interest income and interest expense for such unaudited branches has also been disclosed in the audit report. Such disclosure in the audit report is not only in accordance with the best international trends but also provides useful information to users of financial statements.

It may be noted that, in addition to the aforesaid, the auditor of a banking company is also required to state in his report the matters covered by Section 143 of the Companies Act, 2013. **However, it is pertinent to mention that the reporting requirements relating to the Companies (Auditor's Report) Order, 2020 is not applicable to a banking company, as defined in clause (c) of Section 5 of the Banking Regulation Act, 1949.**

10.2 Long Form Audit Report

Besides the audit report as per the statutory requirements discussed above, the terms of appointment of auditors of public sector banks, private sector banks and foreign banks (as well as their branches), require the auditors to also furnish a long form audit report (LFAR). The matters which the banks require their auditors to deal with in the long form audit report have been specified by the Reserve Bank of India.

The Statutory Central Auditors are required to submit the LFAR to the banks latest by **30th June** every year. To ensure timely submission of LFAR, proper planning for completion of the LFAR is required. While the format of LFAR does not require an executive summary to be given, members may consider providing the same to bring out the key observations from the whole document.

Test Your Understanding 1

The financial statements of a bank are prepared in a specified format. Discuss legal provisions in this regard as applicable to financial statements of a nationalized bank.

10.3 Reporting to RBI

1. The RBI issued a Circular relating to implementation of recommendations of Committee on Legal Aspects of Bank Frauds applicable to all scheduled commercial banks (excluding Regional Rural Banks). Regarding liability of accounting and auditing profession, the said circular provided as under:

“If an accounting professional, whether in the course of internal or external audit or in the process of institutional audit finds anything susceptible to be fraud or fraudulent activity or act of excess power or smell any foul play in any transaction, he should refer the matter to the regulator. Any deliberate failure on the part of the auditor should render himself liable for action”.

As per the above requirement, the member shall be required to report the kind of matters stated in the circular to RBI.

2. Auditor should also consider the provisions of **SA 250, “Consideration of Laws and Regulations in an Audit of Financial Statements”**. The said Standard explains that the duty of confidentiality is over-ridden by statute, law or courts.

3. **SA 240, “The Auditor’s Responsibilities Relating to Fraud in an Audit of Financial Statements”** states that an auditor conducting an audit in accordance with SAs is responsible for obtaining reasonable assurance that the financial statements taken as a whole are free from material misstatement, whether caused by fraud or error.

It must be noted that auditor is not expected to look into each and every transaction but to evaluate the system as a whole. Therefore, if the auditor while performing his normal duties comes across any instance, he should report the matter to the RBI in addition to Chairman/Managing Director/Chief Executive of the concerned bank.

11. CONDUCTING AN AUDIT

The audit of banks or their branches involves the following stages –

1. Initial consideration by the statutory auditor

- (i) **Declaration of Indebtedness:** The RBI has advised that the banks, before appointing their statutory central/branch auditors, should obtain a declaration of indebtedness. Indebtedness refers to the situation of owing money to the bank in any case, whatsoever.
- (ii) **Internal Assignments in Banks by Statutory Auditors:** The RBI decided that the audit firms should not undertake statutory audit assignment while they are associated with internal assignments in the bank during the same year, like *Concurrent audits* (Internal Audit of Banks conducted monthly during the year)

- (iii) **Planning:** Standard on Auditing (SA) 300, “**Planning an Audit of Financial Statements**” requires that the auditor shall undertake the following activities prior to starting an initial audit:
- (a) Performing procedures required by **SA 220, “Quality Control for Audit Work”** regarding the acceptance of the client relationship and the specific audit engagement; and
 - (b) Establish understanding of terms of engagement as per **SA 210, “Agreeing the Terms of Audit Engagements”**.
- (iv) **Communication with Previous Auditor:** As per Clause (8) of the Part I of the First Schedule to the Chartered Accountants Act, 1949, a Chartered Accountant in practice cannot accept position as auditor previously held by another chartered accountant without first communicating with him in writing. He should get a NO Objection Certificate (NOC) from the previous auditor through this communication as to know whether he has any objections to such an appointment made, for any valid reasons.
- (v) **Terms of Audit Engagements: SA 210, “Terms of Audit Engagements”** requires that for each period to be audited, the auditor should agree on the terms of the audit engagement with the bank before beginning significant portions of fieldwork. It is imperative that the terms of the engagement are documented, in order to prevent any confusion as to the terms that have been agreed in relation to the audit and the respective responsibilities of the management and the auditor, at the beginning of an audit assignment.
- (vi) **Initial Engagements:** The auditor needs to perform the audit procedures as mentioned in **SA 510 “Initial Audit Engagements-Opening Balances”** and if after performing that procedures, the auditor concludes that the opening balances contain misstatements which materially affect the financial statements for the current period and the effect of the same is not properly accounted for and adequately disclosed, the auditor should express a qualified opinion or an adverse opinion, as appropriate.
- (vii) **Assessment of Engagement Risk:** The assessment of engagement risk is a critical part of the audit process and should be done prior to the acceptance of an audit engagement since it affects the decision of accepting the engagement and also in planning decisions if the audit is accepted.

(viii) **Establish the Engagement Team:** The assignment of qualified and experienced professionals is an important component of managing engagement risk. The size and composition of the engagement team would depend on the size, nature and complexity of the bank's operations.

(ix) **Understanding the Bank and its Environment: SA 315 "Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and Its Environment"** lays down that the auditor should obtain an understanding of the entity and its environment, including its internal control, sufficient to identify and assess the risks of material misstatement of the financial statements whether due to fraud or error and sufficient to design and perform further audit procedures.

2. Identifying and Assessing the Risks of Material Misstatements: SA 315 requires the auditor to identify and assess the risks of material misstatement at the financial statement level and the assertion level for classes of transactions, account balances and disclosures to provide a basis for designing and performing further audit procedures.

3. Understanding the Bank and Its Environment including Internal Control: An understanding of the bank and its environment, including its internal control, enables the auditor:

- to identify and assess risk;
- to develop an audit plan so as to determine the operating effectiveness of the controls and to address the specific risks.

4. Understanding the Bank's Accounting Process: The accounting process produces financial and operational information for management's use and it also contributes to the bank's internal control. Thus, understanding of the accounting process is necessary to identify and assess the risks of material misstatement whether due to fraud or not and to design and perform further audit procedures.

5. Understanding the Risk Management Process: Management develops controls and uses performance indicators to aid in managing key business and financial risks. An effective risk management system in a bank generally requires the following:

(a) **Oversight and involvement in the control process by those charged with governance:** Those charged with governance (Board of Directors/Managing

Director) should approve written risk management policies. The policies should be consistent with the bank's business objectives and strategies, capital strength, management expertise, regulatory requirements and the types and amounts of risk it regards as acceptable.

- (b) **Identification, measurement and monitoring of risks:** Risks that could significantly impact the achievement of bank's goals should be identified, measured and monitored against pre-approved limits and criteria.
- (c) **Control activities:** A bank should have appropriate controls to mitigate its risks including effective segregation of duties (particularly between front and back offices), accurate measurement and reporting of positions, verification and approval of transactions, reconciliation of positions and results, setting up limits, reporting and approval of exceptions, physical security and contingency planning.
- (d) **Monitoring activities:** Risk management models, methodologies and assumptions used to measure and mitigate risk should be regularly assessed and updated. This function may be conducted by the independent risk management unit.
- (e) **Reliable information systems:** Banks require reliable information systems that provide adequate financial, operational and compliance information on a timely and consistent basis. Those charged with governance and management require risk management information that is easily understood and that enables them to assess the changing nature of the bank's risk profile.

source – educba.com

6. Engagement Team Discussions: The engagement team should hold discussions to gain better understanding of banks and its environment, including internal control, and also to assess the potential for material misstatements of the financial statements.

7. Establish the Overall Audit Strategy: SA 300 “Planning an Audit of financial Statements” states that the objective of the auditor is to plan the audit so that it will be performed in an effective manner. For this purpose, the audit engagement partner should:

- ❑ establish the overall audit strategy, prior to the commencement of an audit; and
- ❑ involve key engagement team members and other appropriate specialists while establishing the overall audit strategy, which depends on the characteristics of the audit engagement.

8. Develop the Audit Plan: SA 300 deals with the auditor’s responsibility to plan an audit of financial statements in an effective manner. It requires the involvement of all the key members of the engagement team while planning an audit.

9. Audit Planning Memorandum: *The auditor should summarise the audit plan by preparing an audit planning memorandum in order to:*

- ❑ Describe the expected scope and extent of the audit procedures to be performed by the auditor.
- ❑ Highlight all significant issues and risks identified during their planning and risk assessment activities, as well as the decisions concerning reliance on controls.
- ❑ Provide evidence that they have planned the audit engagement appropriately and have responded to engagement risk, pervasive risks, specific risks, and other matters affecting the audit engagement.

10. Determine Audit Materiality: The auditor should consider the relationship between the audit materiality and audit risk when conducting an audit. The determination of audit materiality is a matter of professional judgment and depends upon the knowledge of the bank, assessment of engagement risk and the reporting requirements for the financial statements.

11. Consider Going Concern: While obtaining an understanding of the bank, the auditor should consider whether there are events and conditions which may cast significant doubt on the bank’s ability to continue as a going concern.

12. Assess the Risk of Fraud including Money Laundering: As per **SA 240 “The Auditor’s Responsibilities Relating to Fraud in an Audit of Financial**

Statements", the auditor's objective is to identify and assess the risks of material misstatement in the financial statements due to fraud, to obtain sufficient appropriate audit evidence on those identified misstatements and to respond appropriately. The attitude of professional skepticism should be maintained by the auditor so as to recognise the possibility of misstatements due to fraud.

The RBI has framed specific guidelines that deal with prevention of money laundering and "**Know Your Customer (KYC)**" norms. The RBI has from time to time issued guidelines ("Know Your Customer Guidelines – Anti Money Laundering Standards"), requiring banks to establish policies, procedures and controls to deter and to recognise and report money laundering activities.

13. Assess Specific Risks: The auditors should identify and assess the risks of material misstatement at the financial statement level which refers to risks that relate pervasively to the financial statements as a whole and potentially affect many assertions.

14. Risk Associated with Outsourcing of Activities: The modern day banks make extensive use of outsourcing as a means of both reducing costs as well as making use of services of an expert not available internally. There are, however, a number of risks associated with outsourcing of activities by banks and therefore, it is quintessential for the banks to effectively manage those risks.

15. Response to the Assessed Risks: SA 330 "The Auditor's Responses to Assessed Risks" requires the auditor to design and implement overall responses to address the assessed risks of material misstatement at the financial statement level. The auditor should design and perform further audit procedures whose nature, timing and extent are based on and are responsive to the assessed risks of material misstatement at the assertion level.

16. Stress Testing: Stress testing is a software testing activity that determines the robustness of software by testing beyond the limits of normal operation. Stress testing is particularly important for "mission critical" software, but is used for all types of software (**Source – Wikipedia**). RBI has required that all commercial banks shall put in place a Board approved 'Stress Testing framework' to suit their individual requirements which would integrate into their risk management systems.

17. BASEL III framework: Basel norms or accords are the International Banking regulations issued by the BCBS. The Basel Committee on Banking Supervision (BCBS) and the Financial Stability Board (FSB) has undertaken an

extensive review of the regulatory framework in the wake of the sub-prime crisis. In the document titled 'Basel III: A global regulatory framework for more resilient banks and banking systems', released by the BCBS in December 2010, it has inter alia proposed certain minimum set of criteria for inclusion of instruments in the new definition of regulatory capital. The set of agreement by the BCBS, which mainly focuses on risks to banks and the financial system are called Basel accord.

18. Reliance on / review of other reports: The auditor should take into account the adverse comments, if any, on advances appearing in the following-

- ☐ Previous year's audit reports.
- ☐ Latest internal inspection reports of bank officials.
- ☐ Reserve Bank's latest inspection report.
- ☐ Concurrent / Internal audit report.
- ☐ Report on verification of security.
- ☐ Any other internal reports specially related to particular accounts.
- ☐ Manager's charge-handing-over report when incumbent is changed.

The above reports should be reviewed in detail. The Statutory Central Auditors must review the Annual Financial Inspection report of RBI relating to the bank and ensure that the variations in provisions, etc. reported by RBI have been properly considered by the bank management.

12. ADVANCES

In carrying out his substantive procedures, the auditor should examine all large advances while other advances may be examined on a sampling basis. The accounts identified to be problem accounts, however, need to be examined in detail unless the amount involved is insignificant. The extent of sample checking would also depend on the auditor's assessment of efficacy of internal controls. What constitutes a 'large advance' would need to be determined in the context of volume of operations of the branch e.g. an advance may be considered to be a large advance if the year-end balance is in excess of ₹ 10 crore or 10% of the aggregate year-end advances of the branch, whichever is less.

Lending constitutes a major activity of a bank besides the investment function. The core business of banks is accepting deposits for onward lending. **Advances are amount of money or credit, given as a loan from a bank to another party with an agreement that the money will be repaid.** All Bank Loans are made at interest which is a compensation for borrowing. Advances, generally, constitute the largest item on the assets side of the balance sheet of a bank and are major source of its income. Audit of advances is one of the most important areas covered by auditors in bank audit. It is necessary that auditors should have adequate knowledge of the banking industry and the regulations governing the banks. Auditors must be aware of the various functional areas of the bank/branches, its processes, procedures, systems and prevailing internal controls with regard to advances.

Types of Advances: *Funded Loans & Non-Funded Loans*

- ♦ **Funded** loans are those loans where there is an actual transfer of funds from the bank to the borrower. **Examples of funded loans** are Term loans, Cash credits, Overdrafts, Demand Loans, Bills Discounted and Purchased, Participation on Risk Sharing basis, Interest-bearing Staff Loans.
- ♦ **Non-funded** facilities are those which do not involve such transfer. **Examples of non-funded loans are** Letters of credit, Bank guarantees, etc.

A Letter of Credit

source :- opentoexport.com

12.1 What do ADVANCES comprise:

Advances comprise of funded amounts by way of:

- Term loans
- Cash credits, Overdrafts, Demand Loans
- Bills Discounted and Purchased
- Participation on Risk Sharing basis
- Interest-bearing Staff Loans

12.2 Legal requirements of Disclosure in the Balance Sheet:

- A.
 - (i) Bills purchased and discounted
 - (ii) Cash credits, Overdrafts and loans repayable on demand
 - (iii) Term Loans
- B.
 - (i) Secured by tangible assets
 - (ii) Covered by Bank/Government guarantees
 - (iii) Unsecured

C. I. Advances in India:	C. II. Advances outside India:
(i) Priority sectors	(i) Due from Banks
(ii) Public sector	(ii) Due from Others:
(iii) Banks	(a) Bills Purchased and discounted
(iv) Others	(b) Syndicated loans
	(c) Others

12.3 Classification of Advances

12.3.1 Sector Wise

RBI issues common guidelines for lending to Priority Sector which banks are required to follow. These guidelines cover rate of interest; service charges, receipt, sanction, rejection, disbursement Register; issue of Loan Application Acknowledgement. RBI also issues targets for banks for lending to Priority Sector.

Examples of Priority Sectors are Agriculture , MSME , Education , Housing , etc.

source:-neioscape.com

12.4 SECURITY WISE

Banks ask Security or Collateral while lending to assure that the Borrower will return the money to bank in prescribed time else the Banks have legal authority to sell the collateral to recover its money.

Nature of Security

A. Primary security refers to the security offered by the borrower for bank finance or the one against which credit has been extended by the bank. This security is the principal security for an advance.

B. Collateral security is an additional security. Security can be in any form i.e. tangible or intangible asset, movable or immovable asset.

Examples of most common types of securities accepted by banks are the following:

- ☐ Personal Security of Guarantor
- ☐ Goods/Stocks/Debtors/Trade Receivables
- ☐ Gold Ornaments and Bullion
- ☐ Immovable Property

- ❑ Plantations (For Agricultural Advances)
- ❑ Third Party Guarantees
- ❑ Banker's General Lien
- ❑ Life Insurance Policies
- ❑ Stock Exchange Securities and Other Instruments

12.5 Mode of Creation of Security

Depending on the nature of the item concerned, creation of security may take the form of a mortgage, pledge, hypothecation, assignment, set-off or lien as follows:-

(i) Mortgage: Mortgage are of several kinds but the most important are the Registered Mortgage and the Equitable Mortgage.

- ❑ **Registered Mortgage** can be affected by a registered instrument called the 'Mortgage Deed' signed by the mortgagor. It registers the property to the mortgagee as a security.
- ❑ **Equitable mortgage**, on the other hand, is effected by a mere delivery of title deeds or other documents of title with intent to create security thereof.

(ii) Pledge: A pledge thus involves bailment or delivery of goods by the borrower to the lending bank with the intention of creating a charge thereon as security for the advance. The legal ownership of the goods remains with the pledger while the lending banker gets certain defined interests in the goods. The pledge of goods constitutes a specific (or fixed) charge.

(iii) Hypothecation: The hypothecation is the creation of an equitable charge (i.e., a charge created not by an express enactment but by equity and reason), which is created in favor of the lending bank by execution of hypothecation agreement in respect of the moveable securities belonging to the borrower.

Neither ownership nor possession is transferred to the bank. However, the borrower holds the physical possession of the goods as an agent/trustee of the bank.

The borrower periodically submits statements regarding quantity and value of hypothecated assets (stocks, debtors, etc.) to the lending banker on the basis of which the drawing power of the borrower is fixed.

(iv) Assignment: Assignment represents a transfer of an existing or future debt, right or property belonging to a person in favor of another person. Only actionable claims (i.e., claim to any debt other than a debt secured by a mortgage of immovable property or by hypothecation or pledge of moveable property) such as book debts and life insurance policies are accepted by banks as security by way of assignment.

An assignment gives the assignee absolute right over the moneys/debts assigned to him.

(v) Set-off: Set-off is a statutory right of a creditor to adjust, wholly or partly, the debit balance in the debtor's account against any credit balance lying in another account of the debtor. The right of set-off enables a bank to combine two accounts (a deposit account and a loan account) of the same person provided both the accounts are in the same name and same right (i.e., the capacity of the account holder in both the accounts should be the same).

For the purpose of set-off, all the branches of a bank are treated as one single entity. The right of set-off can be exercised in respect of time-barred debts also.

(vi) Lien: Lien is creation of a legal charge with consent of the owner, which gives lender a legal right to seize and dispose / liquidate the asset under lien.

12.6 Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances:

Classification of Advances as per RBI Prudential Norms

(i) **Non-performing Assets:** An asset becomes NPA when it ceases to generate income for the Bank.

A non-performing asset (NPA) is a loan or an advance where -:

- interest and/ or installment of principal remain overdue for a period of more than 90 days in respect of a term loan;
- the account remains 'out of order' in respect of an Overdraft/Cash Credit (OD/ CC);
- the bill remains overdue for a period of more than 90 days in the case of bills purchased and discounted.

(ii) **Out of Order:** An account should be treated as 'out of order' if:-

- ◆ the outstanding balance remains continuously in excess of the sanctioned limit/drawing power or
- ◆ In cases where the outstanding balance in the principal operating account is less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of Balance Sheet ; or
- ◆ credits are there but are not enough to cover the interest debited during the same period, these accounts should be treated as 'out of order'.

Example

A Ltd. has been sanctioned a Cash Credit Facility by ADB Bank Ltd. for INR 50 lacs but as per the Stock Statements furnished for the last quarter, the Bank has calculated the Drawing power to be INR 42 Lakhs. In this case, the account would be termed as OUT OF ORDER if :-

- ◆ the outstanding balance remains continuously in excess of the INR 50 lacs/42 lacs whatever the case may be; or
- ◆ The outstanding balance in the account is less than INR 42 lacs but there are no credits or any payments deposited into this account continuously for 90 days as on the date of Balance Sheet; or
- ◆ credits are there upto say INR 2 lakhs but are not enough to cover the interest debited during the same period which is around INR 5 lakhs.

(iii) **Overdue:** Any amount due to the bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the bank.

REPORT CARD

Standalone data (₹ crore)

Quarter ended	Mar, '19	% Chg. *
Net interest income	5,066.96	26.6
Total income	15,284.59	20.0
Provisions & contingencies	5,399.29	-19.1
Taxes	-547.13	-
Net profit	-991.37	Loss
Gross non-performing assets	48,232.77	-14.6
Net non-performing assets	15,609.5	-33.5

* Change over YoY; Compiled by BS Research Bureau
Source: Press release

Source :- business-standard.com

Source :- inventiva.co.in

Categories of Non-Performing Assets:	Provision required
❑ Substandard Assets: Would be one, which has remained NPA for a period less than or equal to 12 months.	15%
❑ Doubtful Assets: Would be one, which has remained in the substandard category for a period of 12 months. Sub-categories: Doubtful up to 1 Year (D1) Doubtful 1 to 3 Years (D2) Doubtful more than 3 Years (D3)	(Secured + Unsecured) 25% + 100% 40% + 100% 100% + 100%
❑ Loss Assets: Would be one, where loss has been identified by the bank or internal or external auditors or the RBI inspection but the amount has not been written off wholly.	100%

Note :-

- Classification as NPA** should be based on the record of recovery. Availability of security or net worth of borrower/guarantor is not to be taken into account for purpose of treating an advance as NPA or otherwise.

2. Asset classification would be borrower-wise and not facility-wise. All facilities including investments in securities would be termed as NPA.

Example

Mr. Raman has availed two Loan facilities - a Car Loan as well as a Housing Loan from XYZ Bank Ltd. He is regular in depositing the Housing loan EMI but has not deposited the last 4 EMI's of the Car Loan due to paucity of funds. Hence, in this case, not only the Car loan but the Housing Loan would also be treated as an NPA, although it is going good and there are no irregularities because the NPA classification is Borrower wise (Mr. Raman) and not Facility wise (Car & Housing Loan individually).

(iv) Accounts regularized near the Balance Sheet Date: The asset classification of borrower accounts where a solitary or a few credits are recorded before the balance sheet date should be handled with care and without scope for subjectivity. Where the account indicates inherent weakness on the basis of the data available, the account should be deemed as NPA. The auditor should check for sample transactions immediately before the closing of the Financial Year and immediately after the closing of the Financial year to get a knowledge of the objective behind the transactions if they have any relation to each other in the Borrower accounts or if any/some transactions are being reversed during the first few days after closing which might show an arrangement to prevent the Borrower account(s) from slipping into the NPA category.

(v) Government Guaranteed advances:-

- ◆ Central Govt. guaranteed Advances, where the guarantee is not invoked/ repudiated would be classified as Standard Assets, but regarded as NPA for Income Recognition purpose.
- ◆ The situation would be different if the advance is guaranteed by State Government, where advance is to be considered NPA if it remains overdue for more than 90 days for both Provisioning and Income recognition purposes.

(vi) Advances under Consortium:

Consortium advances mean advancing loans to a borrower by two or more Banks jointly by forming a **Consortium**. Joint appraisal, control and monitoring will facilitate for exchange of valuable information among the Banks. Usually, a Bank

with a higher share will lead the **consortium**.

Consortium advances should be based on the record of recovery of the respective individual member banks and other aspects having a bearing on the recoverability of the advances. Where the remittances by the borrower under consortium lending arrangements are pooled with one bank and/or where the bank receiving remittances is not parting with the share of other member banks, the account should be treated as not serviced in the books of the other member banks and therefore, an NPA.

The banks participating in the consortium, therefore, need to arrange to get their share of recovery transferred from the lead bank or to get an express consent from the lead bank for the transfer of their share of recovery, to ensure proper asset classification in their respective books.

source :- marketbusinessnews.com

Note:- Drawing Power Allocation in case of Consortium Cash Credit Account:

The Lead Bank would be responsible for computing the drawing power (DP) of the borrower and allocate the same to member banks. In certain special circumstances, at the request of the Borrower, the Lead Bank may allot a higher or lower share of drawing power to the member bank, as against their share of advances. The proforma DP Allocation Letter is presented hereunder for reference:

**Illustrative Drawing Power for December 2022
as per Stock Statement November, 2022**

TOTAL	100.00	1550.00

12.7 Accounts where there is erosion in the value of security / frauds committed by borrowers

Erosion means ***the gradual destruction or diminution of something*** not prudent to follow stages of asset classification. It should be straight-away classified as doubtful or loss asset as appropriate as follows :-

- (i) Erosion in the value of security can be reckoned as significant when the realisable value of the security is less than 50 per cent of the value assessed by the bank or accepted by RBI at the time of last inspection, as the case may be. Such NPAs may be straight-away classified under **doubtful category** and provisioning should be made as applicable to doubtful assets.
- (ii) If the realisable value of the security, as assessed by the bank/ approved valuers/ RBI is less than 10 per cent of the outstanding in the borrower accounts, the existence of security should be ignored and the asset should be straight-away classified as **loss asset**. It may be either written off or fully provided for by the bank.

12.8 Advances Against Term Deposits, NSCs, KVPs/ IVPs, etc.

Advances against Term Deposits, NSCs eligible for surrender, KVP/IVP and life policies need not be treated as NPAs, provided **adequate margin** is available in the accounts.

12.9 Agricultural Advances Affected by Natural Calamities

Master Circular issued by the RBI deals elaborately with the classification and income recognition issues due to impairment caused by natural calamities. Banks may decide on their own relief measures, viz., conversion of the short term production loan into a term loan or re-schedulement of the repayment period and the sanctioning of fresh short term loan, subject to the guidelines contained in RBI's latest Master Circular on Prudential Norms on Income Recognition, Asset Classification and provisioning pertaining to Advances. In such cases, the NPA classification would be governed by such rescheduled terms.

12.10 Advances to Staff

Interest-bearing staff advances as a banker should be included as part of advances portfolio of the bank. In the case of housing loan or similar advances granted to

staff members where interest is payable after recovery of principal, interest need not be considered as overdue from the first quarter onwards. Such loans/advances should be classified as NPA only when there is a default in repayment of installment of principal or payment of interest on the respective due dates. The staff advances by a bank as an employer and not as a banker are required to be included under the sub-head 'Others' under the schedule of Other Assets.

12.11 Agricultural Advances

As per the guidelines, Agricultural Advances are of two types:

- (1) Agricultural Advances for "long duration" crops; and
- (2) Agricultural Advances for "short duration" crops.

The "long duration" crops would be crops with crop season longer than one year and crops, which are not "long duration" crops would be treated as "short duration" crops.

The crop season for each crop, which means the period up to harvesting of the crops raised, would be as determined by the State Level Bankers' Committee in each State.

The following NPA norms would apply to agricultural advances (including Crop Term Loans):

- ❑ A loan granted for short duration crops will be treated as NPA, if the instalment of principal or interest thereon remains overdue for two crop seasons; and
- ❑ A loan granted for long duration crops will be treated as NPA, if the instalment of principal or interest thereon remains overdue for one crop season.

Test Your Understanding 2

Ranjana Ceramic Private Limited is sanctioned a cash credit facility of ₹100 lacs from a branch of LMO Bank. Besides, branch has also sanctioned a one-time bank guarantee of ₹ 10 lacs on behalf of the company in favour of a statutory authority. Discuss, what type of credit facilities have been sanctioned by branch of LMO bank to the company along with probable purpose for each of credit facility.

Test Your Understanding 3

During course of audit of branch of a nationalized bank, you find that system has generated a report marking ten term loan accounts as SMA. Discuss, meaning of SMA accounts and significance of such a classification.

13. COMPUTATION OF DRAWING POWER

1. **Meaning:- Drawing Power** generally addressed as “DP” is an important concept for **Cash Credit (CC)** facility availed from banks and financial institutions. **Drawing power** is the limit up to which a firm or company can withdraw from the working capital limit sanctioned.

2 **Different from Sanctioned Limit:-** The **Sanctioned limit** is the total exposure that a bank can take on a particular client for facilities like cash credit, overdraft, export packing credit, non-funded exposures etc. On the other hand, **Drawing Power** refers to the amount calculated based on primary security less margin as on a particular date.

3. **Considerations:-** All accounts should be kept within both the drawing power and the sanctioned limit at all times. The accounts which exceed the sanctioned limit or drawing power or are against unapproved securities or are otherwise irregular should be brought to the notice of the Management/Head Office regularly.

4. **Bank's Duties:-** Banks should ensure that drawings in the working capital account are covered by the adequacy of the current assets. Drawing power is required to be arrived at based on current stock statement. However, considering the difficulties of large borrowers, stock statements relied upon by the banks for determining drawing power should not be older than three months. The outstanding in the account based on drawing power calculated from stock statements older than three months is deemed as irregular.

5. **Auditor's Concern:-** The stock statements, quarterly returns and other statements submitted by the borrower to the bank should be scrutinized in detail. The audited Annual Report submitted by the borrower should be scrutinized properly. The monthly stock statement of the month for which the audited accounts are prepared and submitted should be compared and the reasons for deviations, if any, should be ascertained.

6. Computation of DP:- It needs to be ensured that the drawing power is calculated as per the extant guidelines formulated by the Board of Directors of the respective bank and agreed upon by the concerned statutory auditors. Special consideration should be given to proper reporting of sundry creditors for the purposes of calculating drawing power.

7. Stock Audit:- The stock audit should be carried out by the bank for all accounts having funded exposure of more than **5 crores**. Auditors can also advise for stock audit in other cases if the situation warrants the same. Branches should obtain the stock audit reports from lead bank in the cases where the Bank is not leader of the consortium of working capital. The report submitted by the stock auditors should be reviewed during the course of the audit and special focus should be given to the comments made by the stock auditors on valuation of security and calculation of drawing power.

	Particulars of current assets			DP
(A) Stocks				
	Stocks at realizable value		1000	
	Less: Unpaid stocks:			
	- Sundry creditors	300		
	- Acceptances/LCs etc.	<u>300</u>	<u>600</u>	
	Paid for stocks		400	
	Margin @ 25%		<u>100</u>	300
(B) Debtors				
	Total Debtors		1000	
	Less: Ineligible debtors		<u>200</u>	
	Eligible debtors		800	
	Margin @ 40%		<u>320</u>	<u>480</u>
	Total DP			780

14 AUDIT OF ADVANCES

Advances generally constitute the major part of the assets of the bank. There are large number of borrowers to whom variety of advances are granted. The audit of

advances requires the major attention from the auditors.

In carrying out audit of advances, the auditor is primarily concerned with obtaining evidence about the following:

- (a) Amounts included in balance sheet in respect of advances which are outstanding at the date of the balance sheet.
- (b) Advances represent amount due to the bank.
- (c) Amounts due to the bank are appropriately supported by loan documents and other documents as applicable to the nature of advances.
- (d) There are no unrecorded advances.
- (e) The stated basis of valuation of advances is appropriate and properly applied and the recoverability of advances is recognised in their valuation.
- (f) The advances are disclosed, classified and described in accordance with recognised accounting policies and practices and relevant statutory and regulatory requirements.
- (g) Appropriate provisions towards advances have been made as per the RBI norms, Accounting Standards and generally accepted accounting practices.

The auditor can obtain sufficient appropriate audit evidence about advances by study and evaluation of internal controls relating to advances, and by:

- ☐ examining the validity of the recorded amounts;
- ☐ examining loan documentation;
- ☐ reviewing the operation of the accounts;
- ☐ examining the existence, enforceability and valuation of the security;
- ☐ checking compliance with RBI norms including appropriate classification and provisioning; and
- ☐ carrying out appropriate analytical procedures.

In carrying out his substantive procedures, the auditor should examine all large advances while other advances may be examined on a sampling basis. The accounts identified to be problem accounts, however, need to be examined in detail unless the amount involved is insignificant.

Advances which are sanctioned during the year or which are adversely commented by RBI inspection team, concurrent auditors, bank's internal inspection, etc. should generally be included in the auditor's review.

Source : maillie.com

Evaluation of Internal Controls over Advances: The auditor should examine the efficacy of various internal controls over advances to determine the nature, timing and extent of his substantive procedures. In general, the internal controls over advances should include, *inter alia*, the following:

- ❑ The bank should make an advance only after satisfying itself as to the credit worthiness of the borrower and after obtaining sanction from the appropriate authorities of the bank.
- ❑ All the necessary documents (e.g., agreements, demand promissory notes, letters of hypothecation, etc.) should be executed by the parties before advances are made.
- ❑ The compliance with the terms of sanction and end use of funds should be ensured.
- ❑ Sufficient margin as specified in the sanction letter should be kept against securities taken so as to cover for any decline in the value thereof. The availability of sufficient margin needs to be ensured at regular intervals.
- ❑ If the securities taken are in the nature of shares, debentures, etc., the ownership of the same should be transferred in the name of the bank and the effective control of such securities be retained as a part of documentation.
- ❑ All securities requiring registration should be registered in the name of the bank or otherwise accompanied by documents sufficient to give title to the bank.

- ❑ In the case of goods in the possession of the bank, contents of the packages should be test checked at the time of receipt. The godowns should be frequently inspected by responsible officers of the branch concerned, in addition to the inspectors of the bank.
- ❑ Drawing Power Register should be updated every month to record the value of securities hypothecated. These entries should be checked by an officer.
- ❑ The accounts should be kept within both the drawing power and the sanctioned limit.
- ❑ All the accounts which exceed the sanctioned limit or drawing power or are otherwise irregular should be brought to the notice of the controlling authority regularly.
- ❑ The operation of each advance account should be reviewed at least once a year and at more frequent intervals in the case of large advances.

Test Your Understanding 4

CA P is conducting stock audit of a borrower availing cash credit facility of ₹100 lacs from branch of a bank. The cash credit facility is against security of paid stocks and debtors up to 90 days. Margin stipulated is 25% for stocks and 40% for debtors. Following further information is available as on 31.12.22: -

Value of stocks	₹ 125 lacs
Value of stocks (fully damaged) included in above	5 lacs
Value of debtors	50 lacs
Value of debtors exceeding 90 days included in above	10 lacs
Value of creditors for goods	50 lacs

Is Drawing Power computed by CA P for ₹ 82.50 lacs proper?

15. AUDIT OF REVENUE ITEMS - PROFIT AND LOSS ACCOUNT

Sub-section (1) of Section 29 of the Banking Regulation Act, 1949, requires the preparation of Profit and Loss Account in Form B of Third Schedule to the Act or as near thereto as the circumstances admit.

15.1 Income

The following items are included under this head:

Interest Earned	Other Income
□ Interest/ Discount on Advances/ Bills: □ Interest Income on Investments: □ Interest on Balances with RBI and Other Inter-bank Funds: □ Others: This includes any other interest/discount income not included in the above heads	□ Commission, Exchange and Brokerage: This item comprises of the following: (a) Commission on bills for collection. (b) Commission/exchange on remittances and transfers, e.g. demand drafts, NEFT, RTGS, etc. (c) Commission on letters of credit and guarantees, letter of comforts. (d) Loan processing, arranger and syndication fees. (e) Mobile banking fees. (f) Credit/Debit card fee income including annual fee income, merchant acquiring income, interchange fees, etc. (g) Rent from letting out of lockers (h) Commission on Government business. (i) Commission on other permitted agency business including consultancy and other services. (j) Brokerage on securities. (k) Fee on insurance referral. (l) Commission on referral of mutual fund clients. (m) Service/transaction banking charges including charges levied for transaction at other branches. (n) Income from rendering other services like custodian, demat, investment advisory, cash management and other fee based services. □ Profit on Sale of Investments

	□ Profit/Loss on Revaluation of Investments □ Profit on sale of Land, Buildings and Other Assets: □ Profit/Loss on Revaluation of Fixed Assets □ Profit on exchange transactions: This includes revaluation gains/losses on forward exchange contracts and other derivative contracts, premium income/expenses on options, etc. □ Income earned by way of dividends, etc., from subsidiaries and joint ventures abroad/in India. □ Miscellaneous income.
--	---

15.1.1 Audit Approach and Procedures

- **Auditor's Concern:-** In carrying out audit of income, the auditor is primarily concerned with obtaining reasonable assurance that the recorded income arose from transactions, which took place during the relevant period and pertained to the bank, there is no unrecorded income and the income is recorded at appropriate amount.
- **RBI's Directions:-** RBI has advised that in respect of any income which exceeds one percent of the total income of the bank if the income is reckoned on a gross basis or one percent of the net profit before taxes if the income is reckoned net of costs, should be considered on accrual as per Accounting Standard 9.
- **Materiality:-** If any item of income is not considered to be material as per the above norms, it may be recognised when received and the auditors need not qualify their report in that situation.
- **Revenue Certainty:-** Banks recognise income (such as interest, fees and commission) on accrual basis, i.e., as it is earned. It is an essential condition for accrual of income that it should not be unreasonable to expect its ultimate collection. In modern day banking, the entries for interest income on advances are automatically generated through a batch process in the CBS system.

- **Revenue Uncertainty:-** In view of the significant uncertainty regarding ultimate collection of income arising in respect of non-performing assets, the guidelines require that banks should not recognize income on non-performing assets until it is actually realised. When a credit facility is classified as non-performing for the first time, interest accrued and credited to the income account in the corresponding previous year which has not been realized should be reversed or provided for. This will apply to Government guaranteed accounts also.
- **Advances against Securities:-** Interest on advances against Term Deposits, National Savings Certificates (NSCs), Indira Vikas Patras (IVPs), Kisan Vikas Patras (KVPs) and Life policies may be taken to income account on the due date, provided adequate margin is available in the accounts.
- **Bills Purchased:-** In the case of bills purchased outstanding at the close of the year the discount received thereon should be properly apportioned between the two years. [The Unexpired discount/ rebate on bills discounted i.e., where part of receipt comprising discount charges on bills purchased relate to the period beyond the year-end, should be recorded as "Other Liabilities"]. Interest (discount) component paid by Bank/Branch on rediscount of bills from other financial institutions, is not to be netted off from the discount earned on bills discounted.
- **Bills for Collection:-** In the case of bills for collection, the auditor should also examine the procedure for crediting the party on whose behalf the bill has been collected. The procedure is usually such that the customer's account is credited only after the bill has actually been collected from the drawee either by the bank itself or through its agents, etc. This procedure is in consonance with the nature of obligations of the bank in respect of bills for collection. The commission of the branch becomes due only when the bill has been collected.
- **Renegotiations:-** Fees and commissions earned by the banks as a result of re-negotiations or rescheduling of outstanding debts should be recognised on an accrual basis over the period of time covered by the re-negotiated or rescheduled extension of credit. Test check the interest earned by the banks for the sample selected. Test check the fees and commissions earned by the banks made for commission on bills for collection, letters of credit and bank guarantees.

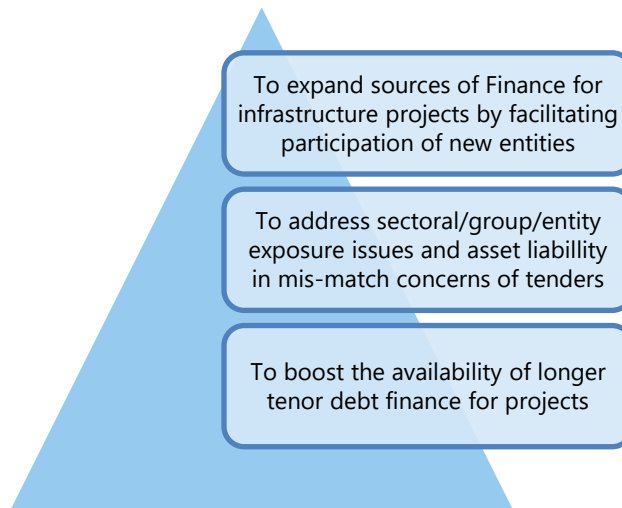

Reversal of Income:

- (a) If any advance, including bills purchased and discounted, becomes NPA as at the close of any year, the entire interest accrued and credited to income account in the past periods, should be reversed or provided for if the same is not realised. This will apply to Government guaranteed accounts also.
- (b) In respect of NPAs, fees, commission and similar income that have accrued should cease to accrue in the current period and should be reversed or provided for with respect to past periods, if uncollected.
- (c) Further, in case of banks which have wrongly recognised income in the past should reverse the interest if it was recognised as income during the current year or make a provision for an equivalent amount if it was recognized as income in the previous year(s).
- (d) Furthermore, the auditor should enquire if there are any large debits in the Interest Income account that have not been explained. It should be enquired whether there are any communications from borrowers pointing out differences in interest charge and whether appropriate action has been taken in this regard.

On leased assets: The component of finance income (as defined in AS 19 – Leases) on the leased asset which was accrued and credited to the income account before the asset became non-performing and remaining unrealised, should be reversed or provided for in the current accounting period.

On Take-out finance: *A takeout loan is a method of financing whereby a loan that is procured later is used to replace the initial loan. More specifically, a takeout loan, or takeout financing, is long-term financing that the lender promises to provide at a particular date or when particular criteria for completion of a project are met. Takeout loans are commonly used in property development (Source :- Investopedia).* In the case of take-out finance, if based on record of recovery, the account is classified by the lending bank as NPA, it should not recognize income unless realised from the borrower/taking-over institution (if the arrangement so provides).

OBJECTIVE OF TAKEOUT FINANCE

Source :- [slideshare.net](https://www.slideshare.net)

On Partial Recoveries in NPAs:

In the absence of a clear agreement between the bank and the borrower for the purpose of appropriation of recoveries in NPAs (i.e., towards principal or interest due), banks are required to adopt an accounting policy and exercise the right of appropriation of recoveries in a uniform and consistent manner. The appropriate policy to be followed is to recognise income as per AS 9 when certainty attaches to realisation and accordingly amount reversed/derecognised or not recognised in the past should be accounted.

Interest partly/fully realised in NPAs can be taken to income. However, it should be ensured that the credits towards interest in the relevant accounts are not out of fresh/additional credit facilities sanctioned to the borrowers concerned.

Memorandum Account: On an account turning NPA, banks should reverse the interest already charged and not collected by debiting Profit and Loss account and stop further application of interest. However, banks may continue to record such accrued interest in a Memorandum account in their books for control purposes. For the purpose of computing Gross Advances, interest recorded in the Memorandum account should not be taken into account.

Income from Investments

Interest Income on Investments: This includes all income derived from Government securities, bonds and debentures of corporates and other investments by way of interest and dividend, except income earned by way of dividends, etc., from subsidiaries and joint ventures abroad/in India. Broken period interest paid on securities purchased and amortisation of premium on SLR investments is net off from the interest income on investments.

Profit on Sale of Investments: Investments are dealt in the course of banking activity and hence the net profit or loss on sale of investments is taken to profit and loss account.

Profit/Loss on Revaluation of Investments: In terms of guidelines issued by the RBI, investments are to be valued at periodical intervals and depreciation or appreciation in valuation should be recognised and taken to profit and loss account.

15.2 Expenses

Expenditure is to be shown under three broad heads:

- (1) Interest expense
- (2) Operating expense
- (3) Provisions and contingencies.

The following items are included under this head:

Interest Expense	Operating Expenses	Provisions and Contingencies
♦ Interest on Deposits	♦ Payments to and Provisions for Employees	♦ Provisions made in respect of the Non-performing assets.
♦ Interest on Reserve Bank of India/Inter-Bank Borrowings	♦ Rent, Taxes and Lighting ♦ Printing and Stationery	♦ Provisions for Taxation
♦ Others	♦ Advertisement and Publicity	♦ Provisions for Diminution in the value of investments
	♦ Depreciation on	♦ Provisions for contingencies

	Bank's Property	
	♦ Directors' Fees, Allowances and Expenses	
	♦ Auditors' Fees and Expenses	
	♦ Legal expenses	
	♦ Postage, Telegrams, Telephones, etc.	
	♦ Repairs and Maintenance	
	♦ Insurance	
	♦ Marketing Expenses	
	♦ Other Expenses	

15.2.1 Audit Approach and Procedures

- In carrying out an audit of interest expense, the auditor is primarily concerned with assessing the overall reasonableness of the amount of interest expense by analysing ratios of interest paid on different types of deposits and borrowings to the average quantum of the respective liabilities during the year. In modern day banking, the entries for interest expenses are automatically generated through a batch process in the CBS system.
- The auditor should obtain from the bank an analysis of various types of deposits outstanding at the end of each quarter. From such information, the auditor may work out a weighted average interest rate. The auditor may then compare this rate with the actual average rate of interest paid on the relevant deposits as per the annual accounts and enquire into the difference, if material.

- The auditor should also compare the average rate of interest paid on the relevant deposits with the corresponding figures for the previous years and analyse any material differences. The auditor should obtain general ledger break-up for the interest expense incurred on deposits (savings and term deposits) and borrowing each month/quarter. The auditor should analyse month on month (or quarter on quarter) cost analysis and document the reasons for the variances as per the benchmark stated. He should examine whether the interest expense considered in the cost analysis agrees with the general ledger. The auditor should understand the process of computation of the average balance and re-compute the same on sample basis.
- The auditor should, on a test check basis, verify the calculation of interest and ensure that:
 - (a) Interest has been provided on all deposits upto the date of the balance sheet;
 - (b) Interest rates are in accordance with the bank's internal regulations, the RBI directives and agreements with the respective deposit holder;
 - (c) Interest on savings accounts are in accordance with the rules framed by the bank/RBI in this behalf.
 - (d) Interest on inter-branch balances has been provided at the rates prescribed by the head office/RBI.

The auditor should ascertain whether there are any changes in interest rate on saving accounts and term deposits during the period. The auditor should obtain the interest rate card for various types of deposits and analyse the interest cost for the period accordingly. The auditor should examine the completeness that interest has been accrued on the entire borrowing portfolio and the same should agree with the general ledgers. The auditor should re-compute the interest accrual i.e., by referring to the parameters like frequency of payment of interest amount, rate of interest, period elapsed till the date of balance sheet, etc. from the term sheet, deal ticket, agreements, etc. and ensure that the recomputed amount is tallying with the amount as per books of accounts without any significant difference.

For audit of Operating expenses, the auditor should :-

- study and evaluate the system of internal control relating to expenses, including authorization procedures in order to determine the nature, timing and extent of his other audit procedures.
- should examine whether there are any divergent trends in respect of major items of expenses.
- perform substantive analytical procedures (*proforma given below for reference*) in respect of these expenses. e.g. *assess the reasonableness of expenses by working out their ratio to total operating expenses and comparing it with the corresponding figures for previous years.*
- verify expenses with reference to supporting documents and check the calculations wherever required.

For audit of Provisions and contingencies the auditor should :-

- ensure that the compliances for various regulatory requirements for provisioning as contained in the various circulars have been fulfilled.
- obtain an understanding as to how the bank computes provision on standard assets and non-performing assets. It will primarily include checking the basis of classification of loans and receivables into standard, sub-standard, doubtful, loss and non-performing assets. The auditor may verify the loan classification on a sample basis.
- obtain the detailed break up of standard loans, non-performing loans and agree the outstanding balances with the general ledger.
- obtain the tax provision computation from the bank's management and verify the nature of items debited and credited to profit and loss account to ascertain that the same are appropriately considered in the tax provision computation.
- examine the other provisions for expenses vis-a-vis the circumstances warranting the provisioning and the adequacy of the same by discussing and obtaining the explanations from the bank's management.

15.3 Disclosure of the prior period items

Since the format of the profit and loss accounts of banks prescribed in Form B under Third Schedule to the Banking Regulation Act, 1949 does not specifically provide for disclosure of the impact of prior period items on the current year's profit and loss, such disclosures, wherever warranted, may be given.

Test Your Understanding 5

You are verifying interest on deposits paid by branch of a nationalized bank. Discuss, any two "analytical procedures", to verify interest on deposits paid by branch.

CASE STUDY

CA M is conducting statutory audit of branch of MMC Bank. During the course of audit, it is noticed as under:-

- (i) Loans under "Kisan credit card" are given by Bank to farmers to meet their short-term credit needs for cultivation of crops.

In respect of one agricultural advance classified under "Kisan Credit Card" having an outstanding balance of ₹ 20 lacs as at year end, there is no transaction in account since last 90 days. The said loan has been granted for cultivation of paddy which is harvested in a period of 3-4 months from sowing. The branch has classified the said advance as "Standard asset".

- (ii) It is also observed that account of one borrower availing cash credit limit of ₹50 lacs was taken over from another bank. The proposal was sanctioned by branch manager instead of immediate next higher authority as required in "*Manual of Delegation of Powers*" of Bank.
- (iii) It is noticed that head office of bank has flagged a savings account maintained in branch in which interest was wrongly paid at higher rate due to wrong data feeding entry. Now, situation has been rectified by debiting excess interest paid in the account. Since there was little balance in savings account, a debit balance of ₹1.50 lac was created in the said savings account due to above reversal. The matter was immediately informed to account holder. However, he has not turned up for payment since matter was informed to him about six months ago.
- (iv) There are many cash credit accounts in the branch. Such borrowers are required to submit monthly stock statements to branch showing calculation of drawing power.

- (v) One borrower has availed a housing loan and a car loan from the branch. Housing loan EMIs are overdue for 120 days as on date of Balance sheet. Car loan EMIs are overdue for 60 days as on date of Balance sheet.

Based on above, answer following questions:

- (1) *As regards description of agricultural advance, which of the following statements is most appropriate in this regard?*
- (a) *The branch has erred in making classification as per RBI norms. It is a "Sub-standard" asset.*
 - (b) *The classification made by branch is proper. However, there are no transactions in account since last 90 days, it is SMA.*
 - (c) *The classification made by branch is proper.*
 - (d) *The branch has erred in making classification as per RBI norms. It is a "doubtful" asset.*
- (2) *Regarding taken over account from another bank, which of following statements is most appropriate?*
- (a) *It is an internal issue of Bank and auditor is not concerned with it.*
 - (b) *It is an internal issue of Bank. However, the auditor may, at his discretion, report it.*
 - (c) *It is a serious violation of laid down procedures of bank for sanction of advances and should be reported by auditor without fail.*
 - (d) *There is no issue involved as credit facility was properly sanctioned.*
- (3) *As regards debit balance of ₹ 1.50 lacs in Savings account, which of the following is correct from point of view of an auditor?*
- (a) *The situation does not attract RBI norms on asset classification.*
 - (b) *The debit balance of ₹1.50 lacs should be classified as NPA.*
 - (c) *The situation does not attract RBI norms on asset classification as no credit facility was granted.*
 - (d) *The bank cannot demand excess interest paid to account holder.*

- (4) Which of the following statements is not true about "drawing power" (DP)?
- (a) Drawing Power refers to the amount calculated based on primary security less margin as on particular date.
 - (b) It is always less than sanctioned limit.
 - (c) It can be different from sanctioned limit.
 - (d) Creditors for goods are reduced for purpose of calculating Drawing Power.
- (5) Considering housing loan and car loan availed by a borrower, which of the following statements is appropriate?
- (a) Both Housing loan as well as car loan should be classified as "Non-Performing Assets" in accordance with RBI norms on asset classification.
 - (b) Housing Loan should be classified as "Non-Performing Asset" in accordance with RBI norms on asset classification. However, Car loan should be classified as Standard asset.
 - (c) Car Loan should be classified as "Non-Performing Asset" in accordance with RBI norms on asset classification. However, Housing Loan should be classified as Standard asset.
 - (d) Both Housing as well as car loans should be classified as Standard assets.

Answers to Questions involving case study

1. **c** 2. **c** 3. **b** 4. **b** 5. **a**

SUMMARY

- ♦ **Commercial banks** are the most wide spread banking institutions in India, that provide a number of products and services to general public and other segments of economy. Their main functions are accepting deposits and granting advances.
- ♦ Banking operations are conducted only at the branches, while other offices act as controlling authorities or administrative offices that lay down policies, systems and internal control procedures for conduct of business, in

compliance with the statutory/ regulatory impositions.

- ◆ Banking operations are peculiar due to huge volume and complexity of transactions, extensive use of technology and wide geographical spread of banks network etc, The approach to a bank audit among other things includes understanding the bank, its environment including internal control, gaining knowledge about bank's accounting system, its risk assessment process, establishing a sound audit strategy and developing the audit plan.
- ◆ Lending constitutes a major activity of a bank. The core business of banks is accepting deposits for onward lending.
- ◆ An asset becomes non-performing (NPA) when it ceases to generate income for the Bank.
- ◆ RBI has stipulated prudential norms for income recognition, asset classification and provisioning pertaining to advances which are to be followed by Banks.
- ◆ Non-performing assets have been further classified into sub-standard, doubtful (D1, D2 and D3) and loss assets.
- ◆ The auditor should examine the efficacy of various internal controls over advances to determine the nature, timing and extent of his substantive procedures.
- ◆ The auditor is also concerned with audit of items of income and expenditure appearing in profit and loss account of a bank Suitable substantive procedures and analytical procedures should be designed and performed by auditor in this regard.

TEST YOUR KNOWLEDGE

MCQs based Questions

- (1) Which of the following is included in "Interest Earned" in Profit & loss A/c of a bank?
- (a) Discount on Bills
 - (b) Loan Processing fees
 - (c) Commission on bills for collection

- (d) *Credit Card Fees*
- (2) *While auditing advances of a bank as statutory auditor, which of the following is not a likely concern of auditor?*
- (a) *Appropriate documentation of advances*
 - (b) *Ensuring budgeted targets of advances given by bank management*
 - (c) *Compliance of sanctioned terms and conditions*
 - (d) *Operations in advance accounts*
- (3) *Any amount due to the bank under any credit facility is 'overdue' if: -*
- (a) *it is not paid on the due date fixed by the bank*
 - (b) *it is not paid within 30 days of due date fixed by the bank*
 - (c) *it is not paid within 60 days of due date fixed by the bank*
 - (d) *it is not paid within 90 days of due date fixed by the bank*
- (4) *Which of the following statement is true regarding appointment of statutory branch auditor of a nationalized bank?*
- (a) *The appointment is made by bank acting through its board of directors with prior approval of Central govt.*
 - (b) *The appointment is made by bank acting through its board of directors with prior approval of RBI*
 - (c) *The appointment is made by bank acting through its board of directors with prior approval of ICAI*
 - (d) *The appointment is made by shareholders in AGM.*
- (5) *Identify the correct statement: -*
- (a) *Income from non-performing assets is recognized on accrual basis*
 - (b) *Income from non-performing assets is never recognized.*
 - (c) *Income from non-performing assets is recognized on basis of actual recovery*
 - (d) *Income from non-performing assets is recognized only when such assets are upgraded to standard assets*

Correct/Incorrect

State with reasons (in short) whether the following statements are correct or incorrect:

- (1) *RBI has been entrusted with the responsibility of regulating the activities of commercial banks only.*
- (2) *In the computerised environment, the auditor need not be familiar with latest applicable RBI guidelines.*
- (3) *The auditor can assume that the system generated information is correct and relied upon.*
- (4) *Collateral security refers to the security offered by the borrower for bank finance or the one against which credit has been extended by the bank.*
- (5) *Registered mortgage is effected by a mere delivery of title deeds or other documents of title with intent to create security thereof*
- (6) *Any amount due to the bank under any credit facility is 'overdue' if it is not paid within 90 days of becoming due.*
- (7) *An account should be treated as 'out of order' if the outstanding balance remains continuously in excess of the sanctioned limit/drawing power.*
- (8) *Banks recognize income on Non-Performing Assets on accrual basis.*
- (9) *Auditor of a Nationalised bank is to be appointed at the annual general meeting of the shareholders.*
- (10) *Reporting of fraud of INR 150 Lakhs by auditor will be done within three days of the fraud coming to the knowledge of the auditor to the Board or the Audit Committee along with remedial action taken in case of audit of ABA Bank Ltd.*
- (11) *Central Govt. guaranteed Advances, where the guarantee is not invoked/ repudiated would be classified as Standard Assets.*

Theoretical Questions

1. *Discuss outline of audit approach including audit procedures while auditing "provisions and contingencies" in financial statements of a bank.*
2. *Discuss importance of implementation of KYC norms by a bank from perspective of an auditor of bank.*

3. *List out any four points which highlight peculiarities involved in banking operations.*
4. *Is statutory auditor of a bank required to report on the requirements relating to Companies (Auditor's Report) Order, 2020?*
5. *Account of a borrower availing cash credit facility from branch of a bank has become "Out of order." Discuss the term "Out of order".*
6. *The functioning of banking industry in India is regulated by the Reserve Bank of India (RBI) which acts as the Central Bank of our country. Explain*
7. *"The engagement team should hold discussions to gain better understanding of the bank and its environment, including internal control, and also to assess the potential for material misstatements of the financial statements. All these discussions should be appropriately documented for future reference". Explain*
8. *Write a short note on reversal of income under bank audit.*

ANSWERS/SOLUTIONS

Answers to the MCQs based Questions

1. **a** 2. **b** 3. **a** 4. **b** 5. **c**

Answers to Correct/Incorrect

- (1) **Incorrect.** RBI has been entrusted with the responsibility of regulating the activities of commercial and other banks. All the Banks and even NBFC's fall under the regulatory function of RBI.
- (2) **Incorrect.** In the Computerised environment, it is imperative that the auditor is familiar with, and is satisfied that, all the norms/parameters as per the latest applicable RBI guidelines are incorporated and built into the system that generates information/data having a bearing on the classification/ provisions and income recognition.
- (3) **Incorrect.** The auditor should not go by the assumption that the system generated information is correct and can be relied upon without evidence

that demonstrates that the system driven information is based on validation of the required parameters for the time being in force and applicable.

- (4) **Incorrect.** Primary security refers to the security offered by the borrower for bank finance or the one against which credit has been extended by the bank. This security is the principal security for an advance. Collateral security is in addition to the Primary security.
- (5) **Incorrect.** Registered Mortgage can be affected by a registered instrument called the 'Mortgage Deed' signed by the mortgagor. It registers the property to the mortgagee as a security. Equitable mortgage, on the other hand, is effected by a mere delivery of title deeds or other documents of title with intent to create security thereof.
- (6) **Incorrect.** Any amount due to the bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the bank and 90 days of becoming overdue.
- (7) **Correct.** An account should be treated as 'out of order' if the outstanding balance remains continuously in excess of the sanctioned limit/drawing power or In cases where the outstanding balance in the principal operating account is less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of Balance Sheet ; or credits are there but are not enough to cover the interest debited during the same period.
- (8) **Incorrect:** Income from non-performing assets (NPA) is not recognised on accrual basis due to its uncertainty but is booked as income only when it is actually received i.e. on actual receipt basis.
- (9) **Incorrect-** Auditor of a nationalized bank is to be appointed by the bank concerned acting through its Boards of Directors and approval of the Reserve bank is required before the appointment is made.
- (10) **Incorrect-** The auditor shall report the matter to the Board or the Audit Committee, as the case may be, immediately but not later than 2 days of his knowledge of the fraud, seeking their reply or observations within 45 days.

The Banking Company is bound to disclose remedial action taken in Board's report.

- (11) **Correct:** Central Govt. guaranteed Advances, where the guarantee is not invoked/ repudiated would be classified as Standard Assets, but regarded as NPA for Income Recognition purpose.

Answers to Theoretical Questions

1. Refer to topic on "Audit of provisions and contingencies"
2. Refer to topic on "Conducting an audit- Assessing the risk of Fraud---"
3. Refer to topic on "Banking Operations"
4. Refer to topic on "Format of report"
5. Refer to topic on "Prudential norms on income recognition, asset classification and provisioning pertaining to advances"
6. Refer Introduction paragraph
7. Refer Para 2
8. Refer Para 15.1

Answers to Questions involving Test Your Understanding

1. Sub-sections (1) and (2) of Section 29 of the Banking Regulations Act, 1949 deal with the form and content of financial statements of a banking company and their authentication. These provisions are also applicable to nationalised banks. Every banking company is required to prepare a Balance Sheet and a Profit and Loss Account in the forms set out in the Third Schedule to the Act or as near thereto as the circumstances admit. Form A of the Third Schedule to the Banking Regulation Act, 1949, contains the form of Balance Sheet and Form B contains the form of Profit and Loss Account.
2. Cash credit facility sanctioned by bank to company is in nature of funded credit facility. Its purpose is to meet working capital requirements of business.

Bank guarantee sanctioned to the company is in nature of non-funded credit facility. Its probable purpose could be requirement of a guarantee by a

statutory authority in exchange of company fulfilling some statutory obligations.

3. Special Mention Account (SMA) is an account which is exhibiting signs of incipient stress resulting in the borrower defaulting in timely servicing of debt obligations, though the account has not yet been classified as NPA as per the RBI guidelines.

In the given case, ten term loan accounts have been classified as SMA. It means that there are overdues in the accounts for a period of 0 to 90 days. Since period of 90 days has not been exceeded as on the date, such accounts have not been classified as NPA as per RBI norms.

Such a classification is significant as early recognition of such accounts enables banks to initiate timely remedial actions to prevent potential slippages of such accounts into NPAs.

4. **The computation of Drawing power is as under: -**

Value of stocks as on 31.12.22	₹ 125 lacs
Less: value of damaged stocks	<u>₹ 5 lacs</u>
	₹ 120 lacs
Less: creditors for goods as on 31.12.22	<u>₹ 50 lacs</u>
Value of Paid stocks	₹ 70.00 lacs
Less: Margin @ 25%	<u>₹17.50 lacs</u>
Drawing power (A)	₹ 52.50 lacs
Value of debtors as on 31.12.22	₹ 50 lacs
Less: debtors exceeding 90 days	<u>₹ 10 lacs</u>
	₹40 lacs
Less: Margin @ 40%	<u>₹ 16 lacs</u>
Drawing Power (B)	₹ 24 lacs
Drawing Power (A+B)	₹ 76.50 lacs

The drawing power calculated by CA P is not proper. Drawing Power comes to ₹ 76.50 lacs.

5. The auditor should obtain from the bank an analysis of various types of deposits outstanding at the end of each quarter. From such information, the auditor may work out a weighted average interest rate. The auditor may then compare this rate with the actual average rate of interest paid on the relevant deposits as per the annual accounts and enquire into the difference, if material.

The auditor should also compare the average rate of interest paid on the relevant deposits with the corresponding figures for the previous years and analyse any material differences.
