Answer to Question 3(c)

As per Interpretation of Statute,

Interpretation is the process used to understand the meaning of the words expressed in the Act. Interpretation is necessary because the making of provision and construction of the provision takes place separately and the Interpretation acts as a bridge between these two.

The difference between interpretation and construction is that when the words are understood by giving them ordinary meaning, it is called Interpretation but where, the words are construed by using any other method going beyond the ordinary meaning, it is meant as Construction.

These two concepts relate to each other as well as they both help in ascertaining the meaning of the words in the Act and help in suppression or continuation of mischief and removal of any absurdity or doubt.

Answer to Question 4(a)

As per the provisions of the Companies Act, 2013, a company may by complying with Rule 3 of Companies (Declaration and Payment of Dividend) Rules, 2014, declare dividend out of the accumulated profits of the company.

In the case, the Directors of Long Boots Ltd. has decided to pay dividend of ₹50 Lakhs after 8 years. The current year profit is ₹16 Lakhs and accumulated profits were ₹170 Lakh and total share capital is ₹680 Lakh [170 Lakh] as it is 25% the

accumulated reserve is 25% of the ^{total} paid up share capital.

Hence, amount required from reserve is 34 Lakh [50 Lakh - 16 Lakh]

Analysis and Conclusion :-

Condition 1:- The rate of dividend shall not exceed the average of rate of dividend declared in immediately three preceding financial year.

This condition will not be applicable as the dividend declared by company in past is 0.

22

Condition 2 :- The amount withdrawn from reserves shall not exceed 10% of paid up share capital and free reserve.

In this case,

Amount ^{to be} withdrawn from reserve = ₹34 Lakh
10% of Share capital and free reserve = ₹85 Lakh
reserve $[680 + 170] \times \frac{10}{100}$

This condition is also satisfied.

Condition 3 :- The amount withdrawn must be used to set off the losses first.

Condition 4 :- The amount of reserve shall not fall below than 15% of the paid up share capital.

Amount of reserve after = 136 Lakhs
withdrawal $[170 \text{ Lakh} - 34 \text{ Lakh}]$

15% of paid up share capital = 102 Lakhs
 $[680 \text{ L} \times 15\%]$

This condition is also satisfied.

Answer to Question 4(b)

As per the provisions of the Limited Liability Partnership Act, 2008, a LLP shall have at least 2 partner.

In case the LLP has less than 2 partner and the LLP carries on business with such reduced number of partner for more than 6 months and the person carrying on business is aware of the fact that the business is being carried out by him alone, such partner shall be personally liable for all the obligations of LLP arising during the expiry of 6 months.

1.5

4bStep1

Further, as per Section 64 of the Limited Liability Partnership Act, the Tribunal has power to order the winding up of the company in certain cases.

Such cases are :-

- If LLP decides to be wound up by Tribunal, or
- If LLP has acted against the interest of sovereignty and integrity of India
- If LLP carries on business for more than 6 months, with reduced number of member.
- If the Tribunal thinks is of opinion that

winding up is just and equitable in public interest

- Tribunal having power to order winding up of the company.

2 **R** means that any general rule prescribed in the **4cStep1** will not be applicable in cases where a special rule in this regard has been made.

Example :-

- 'Subject to' clause :- This clause is subservient to another clause because the other subsection or clause will override this clause or subsection.

- Notwithstanding clause :- This clause has power to make the provision override the other provision. This clause give the provision an overriding effect.

⇒ further, these are classified as.
