IBPS RRB PO Mains Memory Based Papers – Computer Awareness

- b) Google chrome
- c) Netscape
- d) Firefox
- e) None of these

Ans: A

5. Which one of the following is not a social networking site?

- a) Facebook
- b) Notebook
- c) LinkedIn
- d) Twitter
- e) All of the above

Ans: C

6. What is the decimal equivalent of the binary addition of 1010 and 0101? a) 15 b) 20 c) 19 d) 14 e) 21 Ans: A $1010 = 10$ and $0101 = 5$

7. In MS Excel 2010, the shortcut key to apply or remove bold formatting is: a) Ctrl + 4 b) Ctrl + 3 c) Ctrl + 2 d) Ctrl + 5

- e) Ctrl + 1

Ans: C

8. Word processing, Spreadsheet, and Google chrome are examples of ____

- a) Application Software
- b) Operating system software
- c) System Software
- d) Device drivers
- e) None of these

Ans: A

9. A Keyboard, other than being an input device is a ____

- a) Touch device
- b) DAG converter
- c) Terminal
- d) Dumb Terminal
- e) None of these

Ans: D

A dumb terminal is a very simple device with very little processing power and features

10. The right procedure to add a water mark in MS EXCEL

- a) Insert > Header & Footer > Design tab on the ribbon > Picture
- b) Insert > Picture
- c) Insert > Header & Footer > Design tab on the ribbon > Picture
- d) Insert > Clip Art > Design tab on the ribbon

IBPS RRB PO Mains Memory Based Papers – Computer Awareness

>Picture

e) Insert > Header & Footer > Smart Art

>Picture

Ans: A

11. In MS- Word you can force a page break__

- a) By positioning your cursor at the appropriate place and pressing the F1 key
- b) By positioning your cursor at the appropriate place and pressing Ctrl + Enter
- c) By using the Insert/section break
- d) By changing the font size of your documents
- e) None of these

Ans: B

12. The Hard disk and the CD-ROM are connected at the? a) BT Attachment b) SATA Attachment c) AT Attachment d) IDC Attachment e) None of these Ans: C AT Attachment stands for advanced technology attachment, it is an interface that connects hard drives, CD-ROM drives, and other drives.

13. Technique/ Technology used in hiding or de-routing the IP address is _____.

- a) Spoofing
- b) OSPF routing

c) Programmable Shortest Path routing

d) VPN (Virtual Private Network)

e) None of these

Ans: D

VPN is used to hide/change the IP Address

14. Which among the following is NOT a search engine in the internet?

- a) Archie
- b) Google
- c) Nexus
- d) Microsoft Bing
- e) Yahoo!

Ans: C

15. In MS — Excel, Insert Function are located on the__

- a) Vertical scroll bar
- b) Horizontal scroll bar
- c) Formula bar
- d) Standard toolbar
- e) None of these

Ans: D

The standard toolbar contains the Insert functions

16. MAC address is used for

- a) Identifying the physical address of a device on the same local network
- b) Identifying the logical address of a device on the same local network

IBPS RRB PO Mains Memory Based Papers – Computer Awareness

- c) Block the access
- d) Permit the access
- e) None of these

Ans: A

MAC address is used to identify the physical whereas the IP address is used to identify the logical address.

17. In Computer Networking, devices have two kinds of addresses?

- a) IP-logical address & MAC – physical address
- b) IP- physical address & MAC – logical address
- c) Memory address & Serial port address
- d) Device driver address & Serial Bus address
- e) None of these

Ans: A

18. Which among the following are the correct LANs? a) Hybrid LANs b) Star & Mesh LANs c) Client/Server LANs & peer-to-peer LANs d) Address specified and non-specified LANs e) None of these

Ans: C

Types of Local Area Network (LAN)

In a client-server LAN environment, a single server connects to multiple devices known as clients.

- Peer to Peer (P2P) LAN.
- Token ring LAN.

- Token bus LAN.
- Wired LAN.
- Wireless LAN.
- Cloud-managed LAN

19. Specialized programs that assist users in locating information on the Web are called _____. a) Information engines b) Locator engines c) Web browsers d) Resource locators e) Search Engine

Ans: D

20. Which of the following search engines continuously send out that starts on homepage of a server and pursues all links step wise?

- a) Spiders
- b) Packets
- c) Cookies
- d) Paddle
- e) None of these

Ans: A

21. Which among the following _____ computer program is used to browse websites?

- a) MS-Word
- b) FOXPRO
- c) UNIX

IBPS RRB PO Mains Memory Based Papers – Computer Awareness

- d) Mozilla
- e) None of these

Ans: D

22. A Discrete signal is also known as _____

- a) Digital Signal
- b) Analog Signal
- c) Fourier Signal
- d) None of these
- e) All of the above

Ans: A

23. How can the slide show be _____ repeated continuously in MS-PPT?

- a) loop continuously until 'Esc'
- b) repeat continuously
- c) loop more
- d) One by one
- e) None

Ans: A

24. The oldest version of Windows from the following is? a) Windows Server 2003 b) Windows XP c) Windows 8 d) Windows 7 e) Windows 10

Ans: B

Windows XP was introduced in the year 2001 whereas Windows server was introduced in

2003.

25. Mobile OS is a type of? a) Real Time OS b) Embedded OS c) Multiuser OS d) Branched OS e) None of these Ans: B

An embedded operating system is a specialized operating system (OS) designed to perform a specific task for a device that is not a computer. The main job of an embedded OS is to run the code that allows the device to do its job

26. The correct steps to convert the MS Word doc file to PDF is _____

- a) Click on Save as > Type PDF
- b) Rename file with .pdf extension
- c) Rename file with PDF words in the name
- d) All are valid
- e) None of these

Ans: A

27. Computers connected to a LAN can__ a) Run faster b) Go on line c) Share information and/or share peripheral equipment d) E-mail e) None of these

IBPS RRB PO Mains Memory Based Papers – Computer Awareness

Ans: C

28. Which of the following is used as a surveying tool?

- a) Google Sheets
- b) Google Docs
- c) Google Meet
- d) Google Form
- e) None of these

Ans: D

Google Forms is a survey administration software included as part of the free, web-based Google Docs Editors suite offered by Google

29. Which of the following is NOT an accessories tool in a window 7 system?

- a) Paint
- b) WordPad
- c) Notepad
- d) MS SQL Server
- e) Snipping Tool

Ans: D

30. The history of the website browsing details is stored in?

- a) Web Cookies
- b) URLs
- c) Hard Disk
- d) Flash drives
- e) None of these

Ans: A

Cookies are text files with small pieces of data — like a username and password — that are used to identify your computer as you use a computer network. Specific cookies known as HTTP cookies are used to identify specific users and improve your web browsing experience.

31. Which one of the following is not a property of a compact disc? a) Malleable b) Storing text files c) Storing video and audio files d) Storing pictures (.jpg,.png files) e) None of these

Ans: A

Other than malleable, all other are the properties of a CD. Malleable means having the property to be hit or pressed without breaking

32. Windows explorer is a program that is used to:

- a) Browse the internet
- b) Navigate the files or folders in windows operating system
- c) Discover the number of window running in PC
- d) Calculate how many application is running
- e) All of the above

Ans: B

Windows explorer is used to navigate the files or folders in windows operating system

33. __ is a small, portable flash memory card that

IBPS RRB PO Mains Memory Based Papers – Computer Awareness

plugs into a computer's USB port and functions as a portable hard drive.

- a) CD-ROM
- b) Flash drive
- c) DVD-ROM
- d) CD-RW
- e) All of these

Ans: B

Flash drive is a small, portable flash memory card that plugs into a computer's USB port and functions as a portable hard drive

34. What kind of memory is both static and non-volatile?

- a) BIOS
- b) CACHE
- c) RAM
- d) ROM
- e) All of the above

Ans: D

35. The ability to read or write each piece of information in a storage device in approximately the same length of time regardless of its location is__ a) Sequential Access b) Random Access c) Registerscan d) Linear Search

- e) None of these

Ans: A

Sequential Access is the ability to read or write each piece of information in a storage device in approximately the same length of time regardless of its location

36. If a disk drive fails but the computer application running and using it can continue processing this application is said to have been designed with this feature. a) 100 percent uptime b) Fault tolerance c) High reliability

- d) All of the above

- e) None of these

Ans: B

If a disk drive fails but the computer application running and using it can continue processing this application is said to have been designed with fault tolerance

37. Protecting data by copying it from the original source to a different destination is called

- a) Formatting
- b) Hacking
- c) Backup
- d) Data diddling
- e) None of these

Ans: C

38. Cloud Storage can be defined as a virtual memory unit that allows users to create, update,

IBPS RRB PO Mains Memory Based Papers – Computer Awareness

delete and perform all manipulative operations on the data. The cloud storage is which type of memory?

- a) Primary
- b) Secondary
- c) Cache
- d) Cookie generated memory
- e) None of these

Ans: B

The cloud storage is a secondary memory

39. Dr EF Codd represented _____ rules for relational database management system (RDBMS) in 1970

- a) 9
- b) 12
- c) 14
- d) 11
- e) None of these

Ans: B Dr EF Codd represented 12 rules for relational database management system (RDBMS) in 1970.

40. Which among the following software is not a product of Microsoft? a) Open office b) Outlook c) Access d) Visual studio express e) Windows

Ans: A

Open office, which is now discontinued, was a product developed by the Sun Microsystems in the late 90's and then by Oracle corporation in the 2010s
