Directions (36-44): Read the following passage and answer the given questions.

In the world of armed forces, dogs play an extraordinary role that goes far beyond companionship. They serve as trackers, guards, messengers, and protectors, often working in harsh terrains and unpredictable missions. Military dogs are essential for detecting hidden explosives, tracking infiltrators, and alerting troops to potential threats. Their sharp instincts, unmatched loyalty, and rigorous preparation make them indispensable partners in critical operations. They are not just supporting figures; they are front-line defenders. Far

from being fillers in military structures, these brave animals are sentinels, standing watch when danger lurks and acting with courage when every second counts.

Among these remarkable canines was Snowy, a spirited dog with a gleaming white coat that earned him his name. From the moment he arrived at the training center, his alert eyes and quick learning impressed everyone. Snowy was **trained** at a specialized military academy where he mastered complex commands, learned to detect explosives, and adapted to challenging terrains. He was conditioned to remain calm under pressure, respond to silent signals, and work seamlessly with his handler. His training was not merely about obedience; it was about building instincts, discipline, and trust.

Once Snowy joined the unit at a remote border post, he quickly became a beloved member of the team. Soldiers admired his energy, while his handler relied on his sharp senses during night patrols. One freezing night, the camp lay quiet under a pale moonlight. The soldiers were resting after a long day when Snowy's ears suddenly _____. He sensed movement near the perimeter. Without hesitation, he barked sharply and ran toward the fence, alerting the guards. His timely reaction allowed the soldiers to spot and intercept a group trying to cross the border secretly. Snowy's vigilance averted a potential threat, and that night, he truly embodied the role of a **sentinel**—watchful, fearless, and devoted.

Beyond his operational duties, Snowy shared a deep emotional bond with the soldiers. He sensed when someone was anxious, resting his head gently on their knees, as if offering silent comfort. He celebrated victories with wagging enthusiasm and stood quietly beside those who missed home. Snowy was more than a military dog; he was a loyal friend, a trusted partner, and a hero in his own right. His story reflects the invaluable role dogs play in safeguarding lives and supporting those who protect the nation.

S36. Ans.(c)

Sol. “Trained” in this context refers to **systematic preparation through repetition**, which is best matched by “conditioned.”

- **English meaning:** taught or prepared through repeated practice to behave or respond in a particular way.
- **Hindi meaning:** अभ्यास द्वारा तैयार किया गया / अनुशासित किया गया
- **Example:** The athletes were conditioned to stay focused even under pressure.

Why correct:

In the passage, “trained” refers to how Snowy was prepared to respond instinctively to commands, signals, and situations. “Conditioned” fits best because it implies **systematic training to create disciplined and automatic responses**, which aligns with military dog training.

Meanings and Analysis:
(a) adapted

- **English meaning:** adjusted to new conditions or surroundings.

• **Hindi meaning:** अनुकूलित / ढालना

- **Example:** He adapted quickly to the new environment.

• **Why wrong:** “Adapted” focuses on adjusting to circumstances, not systematic training.

(b) rehearsed

- **English meaning:** practiced repeatedly for a performance.

• **Hindi meaning:** अभ्यास किया गया (विशेष रूप से प्रदर्शन के लिए)

- **Example:** The dancers rehearsed their steps before the show.

- **Why wrong:** This is more about practicing a performance, not rigorous military training.

(d) informed

- **English meaning:** having knowledge or being told about something.

• **Hindi meaning:** सूचित / जानकारी दिया गया

- **Example:** He was informed about the meeting.

- **Why wrong:** This doesn't involve the act of teaching or preparing.

(e) corrected

- **English meaning:** made free from errors.

• **Hindi meaning:** सुधारा गया / ठीक किया गया

- **Example:** The teacher corrected the mistakes in the essay.

- **Why wrong:** "Corrected" focuses on fixing errors, not training or preparing.

S37. Ans.(a)

Sol. In this context, "just" means "merely" or "only," emphasizing that dogs are **more than just animals**—they're sentinels.

English meaning: no more than; merely

Hindi meaning: मत्र / केवल

Example: He is not just a student, he is also a brilliant musician.

Why correct:

In this sentence, "just" is used in the sense of "merely" or "only", indicating that military dogs are more than *only supporting figures*. Hence, "only" is the best synonym in this context.

Meanings and Analysis:

(b) fair

- **English meaning:** treating people equally and honestly

• **Hindi meaning:** न्यायपूर्ण / निष्पक्ष

- **Example:** The judge gave a fair verdict.

- **Why wrong:** This relates to justice, not the meaning "only".

(c) upright

- **English meaning:** honest and morally correct

• **Hindi meaning:** ईमानदार / सोधा-सादा

- **Example:** He was known as an upright citizen.

- **Why wrong:** This refers to moral character, not limitation.

(d) balanced

- **English meaning:** keeping equal proportions; fair and not extreme

• **Hindi meaning:** संतुलित / निष्पक्ष

- **Example:** She gave a balanced opinion on the issue.

- **Why wrong:** This is unrelated to the meaning of "only".

(e) truthful

- **English meaning:** honest; telling the truth

• **Hindi meaning:** सच्चा / सत्यवादी

- **Example:** She was always truthful about her mistakes.

- **Why wrong:** This refers to honesty, not "merely" or "only".

S38. Ans.(c)

Sol. The passage emphasizes the **front-line role** of military dogs in real-time operations such as **detecting explosives, alerting soldiers, and tracking infiltrators**. Option (c) captures this most accurately. Options (a), (b), (d), and (e) either **undermine their operational importance** or focus on limited aspects not central to the passage.

Analysis:

The passage clearly mentions that dogs "serve as trackers, guards, messengers, and protectors", and are crucial for "detecting hidden explosives, tracking infiltrators, and alerting troops to potential threats."

It emphasizes that they are "front-line defenders" and "indispensable partners in critical operations."

This directly supports option (c).

(a) Incorrect

- While the passage does mention their emotional bond with soldiers, their **primary role** is operational, not merely companionship or stress relief.

(b) Incorrect

- There is no reference to ceremonial or parade roles anywhere in the passage.

(d) Incorrect

- The passage explicitly says they are **not just supporting figures** but **front-line defenders**, which contradicts this statement.

(e) Incorrect

- Obedience and discipline are mentioned as part of their training, but the **main focus is their operational use in real-time missions**, not just obedience in camps.

S39. Ans.(c)

Sol. In the passage, the phrase is:

"The soldiers were resting after a long day when Snowy's ears suddenly perked up."

This indicates **alertness or sudden attention**, suggesting Snowy **detected something unusual**.

Analysis:

(c) perked up – Correct

- **English meaning:** became alert or attentive suddenly

• **Hindi meaning:** खड़े हो जाना / सतर्क हो जाना (कानों का अचानक चौकन्ना होना)

- **Example:** The dog's ears perked up when it heard a noise outside.

• **Why correct:**

- The context describes Snowy sensing movement near the perimeter. "Perked up" fits naturally as it expresses sudden alertness and attentiveness — a typical reaction of a trained dog detecting something unusual.

(a) flattened down

- **English meaning:** ears lying back against the head (often indicating fear or submission)

• **Hindi meaning:** झुक जाना / नीचे दब जाना

• **Example:** The dog's ears flattened down in fear.

• **Why wrong:** This doesn't match Snowy's alert reaction.

(b) tuned out

- **English meaning:** stopped paying attention

• **Hindi meaning:** ध्यान हटाना / अनदेखा करना

• **Example:** He tuned out during the boring lecture.

• **Why wrong:** Opposite meaning — Snowy became more alert, not less.

(d) drooped slowly

- **English meaning:** hung down limply, showing tiredness or sadness

• **Hindi meaning:** झुक जाना / लटक जाना

• **Example:** The dog's ears drooped slowly as it got tired.

• **Why wrong:** The scene describes sudden alertness, not fatigue.

(e) looked away

- **English meaning:** turned the gaze elsewhere

• **Hindi meaning:** नज़रें फेर लेना

• **Example:** She looked away to avoid eye contact.

• **Why wrong:** Snowy didn't look away; he reacted sharply to a threat.

S40. Ans.(c)

Sol. The passage shows Snowy **naturally sensed emotional states** and provided comfort, but it **does not state** that emotional sensitivity was part of his **formal training**. Therefore, option (c) is **not true**.

The passage mentions Snowy was **emotionally sensitive** to soldiers — he comforted anxious soldiers by resting his head on their knees, celebrated victories, and stood quietly beside those who missed home.

However, **this emotional connection developed naturally**, not as part of his **formal military training**. His training focused on mastering commands, detecting explosives, adapting to terrains, staying calm, and responding to signals — **not emotional sensitivity**.

Analysis:

(a) TRUE

- Snowy was trained to **respond to silent signals**, and his **alert eyes and quick learning** were recognized early at the training center.

(b) TRUE

- The passage says: "*his handler relied on his sharp senses during night patrols*", which clearly indicates trust during surveillance duties.

(d) TRUE

- Snowy's **prompt reaction** to movement near the perimeter **alerted soldiers**, who then intercepted infiltrators. This shows he acted swiftly to prevent a threat.

(e) TRUE

- The passage explicitly mentions both his **operational role** (detecting threats, border patrol) and his **emotional role** (comforting soldiers), showing he contributed in both capacities.

S41. Ans.(d)

Sol. Option (d) is correct – Snowy was trained to operate under pressure and responded quickly during the infiltration attempt.

The passage clearly mentions:

- Snowy "**adapted to challenging terrains**" during training.
- He "**sensed movement near the perimeter**" and **alerted the guards** without hesitation, preventing infiltration.
- These details confirm that Snowy adapted well to harsh conditions and acted **proactively** during critical situations.

Analysis:

(a) Incorrect

- The passage portrays military dogs, including Snowy, as **highly trained and dependable**, not unpredictable. In fact, they are trusted for **independent alertness** during night patrols.

(b) Incorrect

- The passage states Snowy helped **intercept a group trying to cross the border secretly**, but it does not say anything about **multiple terrorists** or a **direct assault**.

(c) Incorrect

- Emotional bonds developed through **daily interactions and shared experiences**, not through formal training exercises. The passage describes Snowy comforting soldiers emotionally, which is not part of training.

(e) Incorrect

- Military dogs are described as trackers, guards, messengers, and protectors. They are **not used to bridge communication gaps between units**.

S42. Ans.(b)

Sol. A **sentinel** is someone who **keeps watch or guards** an area. "Guardian" fits this meaning precisely.

(b) **guardian** – Correct

- **English meaning:** a person or being who guards or protects something or someone

- **Hindi meaning:** रक्षक / पहरेदार / संरक्षक

- **Example:** The lighthouse stood as a guardian over the rocky shore.

• Why correct:

- In the passage, "**sentinel**" refers to dogs acting as **watchful protectors**, guarding troops and alerting them to danger. "Guardian" captures this meaning accurately.

Meanings:

(a) **officer**

- **English meaning:** a person holding a position of authority in the armed forces

- **Hindi meaning:** अधिकारी

- **Example:** The officer led the squad into the field.

- **Why wrong:** A sentinel is not necessarily an officer; it's someone or something that keeps watch.

(c) **warrior**

- **English meaning:** a person engaged in warfare

- **Hindi meaning:** योद्धा / सैनिक

- **Example:** The warrior fought bravely.

- **Why wrong:** A sentinel **guards and watches**, not necessarily fights like a warrior.

(d) **protectorate**

- **English meaning:** a state controlled and protected by another

- **Hindi meaning:** संरक्षित प्रदेश / आश्रित राज्य

- **Example:** The island became a protectorate under the empire.

- **Why wrong:** This is a political term, not a synonym for sentinel.

(e) **disciplinarian**

- **English meaning:** a person who enforces strict discipline

- **Hindi meaning:** अनुशासनप्रिय व्यक्ति

- **Example:** The headmaster was a strict disciplinarian.

- **Why wrong:** A sentinel is a **watcher or guard**, not someone who enforces discipline.

His placement was linked to his **training, skills, and operational readiness**, not his appearance.

Therefore, (c) is **logically incorrect**. Others are **justified or directly supported**.

• **Hindi:** असहमति, कलह, मतभेद, झगड़ा

(I) There was growing discord among the team members after the project deadline was missed.

Correct Usage — Here, "discord" means *conflict or disagreement* among team members. The sentence is both **grammatically and contextually correct**.

Correct Answer: (c) Both (I) and (III)

S52. Ans.(c)

Sol. Let's analyze the question carefully:

Original sentence:

"She couldn't restrain her excitement upon hearing the news."

Step 1: Meaning of the key phrase

Restrains her excitement means "to control or hold back her feelings of excitement."

• **Hindi:** अपनी उत्साह या उत्साह को नियंत्रित करना या रोकना।

• **Example:** He tried to restrain his excitement when he received the award.

So, the sentence means — *She was so happy that she couldn't control her excitement.*

Step 2: Analyze each option

(a) express her excitement

• **Meaning:** To show or convey excitement openly. (अपनी उत्सुकता व्यक्त करना)

• This gives the opposite meaning. The original sentence says she *couldn't control* her excitement, not that she *expressed* it deliberately.

• **Incorrect.**

• **Meaning:** To conceal one's sadness or letdown. (अपनी निराशा छिपाना)

• This changes both the emotion and meaning — *disappointment ≠ excitement*.

• This matches perfectly with "restrain her excitement."

• **Correct.**

Step 2: Analyze each option

- This changes the meaning completely — *curb* means to *control*, not to *ignore*.

- **Incorrect.**

So, the sentence means — *She tried not to show that she felt embarrassed after the mistake.*

Step 2: Analyze each option

(a) explain her action

- **Meaning:** To justify or clarify what she did. (अपने कार्य को समझाना)

- This changes the meaning; “mask her embarrassment” means to *hide feelings*, not to *explain actions*.

- **Incorrect.**

(b) reveal her shame

- **Meaning:** To show or display her shame openly. (अपनी शर्म को दिखाना)

- This is the *opposite* of “mask,” which means *to hide*.

- **Incorrect.**

- **Example:** He tempered his anger with patience during the argument.

So, the sentence means — *She was able to keep her frustration under control even though things were delayed.*

Step 2: Analyze each option

(a) amplify her annoyance

- **Meaning:** To increase or intensify her irritation. (अपनी झुंझलाहट को बढ़ाना)

- This is the opposite of *temper* (which means to reduce or soften).

- **Incorrect.**

(b) moderate her anger

- **Meaning:** To calm or reduce the intensity of her anger. (अपने गुस्से को नियंत्रित करना या कम करना)

- This matches perfectly with "temper her frustration."

- **Incorrect.**

Step 3: Correct answer

Correct Option: (b) moderate her anger

Step 4: Example

Example:

"She managed to moderate her anger even when the meeting was postponed."

Meaning — She controlled her irritation and remained calm despite the delay.

Sol. Let's analyze each part of the sentence carefully:

Sentence:

"The judge **have ordered an inquiry into the financial irregularities reported by the media.**"

Part (A): "The judge have"

Error:

The subject "judge" is **singular**, but the verb "have" is **plural**. According to **subject-verb agreement**, a singular subject takes a singular verb.

Hence, "have" should be replaced with "has."

Correction: *The judge has ordered...*

Part (B): "ordered an inquiry"

Correct: Grammatically and contextually fine.

Part (C): "into the financial irregularities"

Correct: The preposition "into" correctly indicates the investigation's direction or subject.

Part (D): "reported by the media"

Correct: Proper past participle usage; no error.

Corrected Sentence:

The judge has ordered an inquiry into the financial irregularities reported by the media.

Answer: (a) A

Grammar Rule:

Subject-Verb Agreement Rule:

- Singular subjects → singular verbs (he *has*, she *goes*, the judge *has*).

- Plural subjects → plural verbs (they *have*, judges *have*).

Example:

- The teacher **have** corrected the papers.

- The teacher **has** corrected the papers.

S57. Ans.(e)

Sol. Let's examine each part of the sentence step by step for grammatical or idiomatic errors.

Sentence:

The cyberattack was so severe that it disrupted services across several countries yesterday.

Part (A): "The cyberattack"

This is correct. The noun "cyberattack" is used properly as the subject of the sentence.

Part (B): "was so severe"

This is grammatically correct. The structure "so + adjective" (so severe) is correctly used here.

Part (C): "that it disrupted services"

This is also correct. The conjunction "that" properly connects the result clause ("it disrupted services") to the cause ("was so severe").

Part (D): "across several countries yesterday"

This is grammatically and contextually correct. The adverb "yesterday" correctly indicates time, and "across several countries" correctly shows the extent of the disruption. All parts of the sentence are grammatically and contextually accurate.

Correct Answer: (e) No error

Explanation:

The sentence follows the correct "so...that" cause-effect construction and maintains appropriate tense consistency (past tense "was" and "disrupted").

Example:

"The storm was so strong that it uprooted trees across the town."

Similarly, "The cyberattack was so severe that it disrupted services across several countries yesterday."

S58. Ans.(c)

Sol. Let's examine the sentence part by part:

Sentence:

The government is planning to increase the number of EV charging station in the next fiscal year.

Part (A): "The government is"

Correct. The subject "government" agrees with the singular verb "is."

Part (B): "planning to increase"

Correct. The infinitive "to increase" is properly used after "planning."

Part (C): "the number of EV charging station"

Incorrect.

Here, "station" should be plural — "stations" — because it refers to multiple EV charging locations.

The phrase "the number of" is always followed by a **plural noun** (though the verb remains singular).

Correct form: "the number of EV charging stations"

Part (D): "in the next fiscal year"

Correct. The prepositional phrase is grammatically and contextually accurate.

Corrected sentence:

The government is planning to increase the number of EV charging stations in the next fiscal year.

Answer: (c) C

Rule:

When using "the number of + noun," the noun must be plural.

Example: "The number of applicants has increased." (Not *applicant*)

S59. Ans.(a)

Sol. Let's analyze each part carefully:

Sentence:

The journalist has been reporting live from the conflict zone for over a week now.

Part (A): "The journalist has being"

Incorrect.

The phrase "has being" is grammatically wrong.

After "has" (or "have"), we must use the **past participle** form of the verb **be**, which is "**been**," not "being."

Correct form: "has been"

Rule:

- Present Perfect Continuous Tense structure → **has/have + been + verb-ing**

- Example:

- She has been studying for hours.

- She has been studying for hours.

Part (B): "reporting live" — Correct.

Part (C): "from the conflict zone" — Correct.

Part (D): "for over a week now" — Correct.

Corrected sentence:

The journalist has been reporting live from the conflict zone for over a week now.

Answer: (a) A

S60. Ans.(c)

Sol. Let's analyze each part step by step:

Sentence:

Many voters expressed their concerns about how the new law will affects digital privacy rights.

Part (A): "Many voters" — Correct.

Plural subject; grammatically fine.

Part (B): "expressed their concerns" — Correct.

Verb "expressed" correctly in past tense; no error.

Part (C): "about how the new law will affects" — Incorrect.

After "will" (a modal auxiliary), the **base form of the verb** (without "-s") should be used.

Here, "affects" (with -s) is incorrect; it should be "**affect**."

Rule:

After modals like *will, shall, can, may, must*, etc., always use the **base verb** (first form).

Example:

(correct) She will go tomorrow.

(incorrect) She will goes tomorrow.

Correct phrase: "will affect."

Part (D): "digital privacy rights" — Correct.

Corrected sentence:

Many voters expressed their concerns about how the new law will affect digital privacy rights.

Answer: (c) C

S61. Ans.(d)

Sol. Let's analyze carefully:

Original sentence:

Urban **demand** (A) projects often threaten **historical** (B) sites, prompting activists to **development** (C) stricter cultural preservation laws.

Step 1: Meanings of highlighted words

1. Demand (A)

- *English*: The desire or need for goods, services, or actions.
- *Hindi*: मांग या आवश्यकता।
- *Example*: The demand for electric vehicles is increasing rapidly.

2. Historical (B)

- *English*: Related to history or past events.
- *Hindi*: ऐतिहासिक, इतिहास से जुड़ा हुआ।
- *Example*: The city is known for its historical monuments.

3. Development (C)

- *English*: The process of growth, progress, or construction.
- *Hindi*: विकास, प्रगति या निर्माण की प्रक्रिया।
- *Example*: Urban development has changed the skyline of the city.

Step 2: Identifying incorrect placement

- “Urban demand projects” → Incorrect. The phrase doesn't make sense because ‘**demand projects**’ is not a logical combination.
- “to development stricter laws” → Incorrect. After “to,” the verb form should be the **base form ‘develop’**, not the noun ‘development’.

So, the correct logical and grammatical order should connect:

- “Urban **development** projects” (makes sense as projects related to city growth).
- “historical sites” (fits naturally).

Step 3: Correct rearrangement

Rearranging the highlighted words **CBA** gives:

Urban **development** projects often threaten **historical** sites, prompting activists to **demand** stricter cultural preservation laws.

Step 4: Explanation

- “**Development projects**” — Correct collocation; projects are developed for growth.
- “**Historical sites**” — Grammatically correct; describes the type of sites.
- “**To demand**” — Correct verb form after “to.”

Corrected sentence:

Urban **development** projects often threaten **historical** sites, prompting activists to **demand** stricter cultural preservation laws.

Answer: (d) **CBA**

S62. Ans.(b)

Sol. Let's analyze this step by step carefully:

Original sentence:

New **enforcement** (A) aim to protect user data online, yet **regulations** (B) across international platforms **remains** (C) inconsistent.

Step 1: Meanings of the highlighted words

1. Enforcement (A)

- *English*: The act of ensuring that laws or rules are followed.
- *Hindi*: प्रवर्तन, कानूनों या नियमों का पालन सुनिश्चित करने की प्रक्रिया।
- *Example*: Strict enforcement of traffic laws reduces accidents.

2. Regulations (B)

- *English*: Rules or laws made by authorities to control conduct.
- *Hindi*: विनियम, नियम या कानून जो व्यवहार को नियंत्रित करते हैं।
- *Example*: Environmental regulations are becoming more stringent.

3. Remains (C)

- *English*: Continues to be; stays the same.
- *Hindi*: बना रहना, जारी रहना।
- *Example*: The issue remains unresolved despite several discussions.

Step 2: Identify grammatical and contextual errors

- “**New enforcement aim...**” → Incorrect because “enforcement” is a **singular noun**, so it cannot “aim.” The subject performing the action should be plural — “**regulations aim**” makes sense.

- “**regulations ... remains**” → Incorrect subject-verb agreement. “Regulations” is plural, so the verb should be “**remain**,” not “remains.”

Hence, A and B need to be swapped for contextual and grammatical correctness.

Step 3: Rearrangement (B-A-C)

After swapping A and B, we get:

New **regulations** aim to protect user data online, yet **enforcement** across international platforms **remains** inconsistent.

Step 4: Explanation

- “**Regulations aim**” — Correct plural subject-verb agreement.
- “**Enforcement remains inconsistent**” — Grammatically and contextually correct; refers to the uneven application of laws.
- “**Remains**” — Correctly used here for singular noun “enforcement.”

Corrected sentence:

New **regulations** aim to protect user data online, yet **enforcement** across international platforms **remains** inconsistent.

Answer: (b) **BAC**

S63. Ans.(a)

Sol. Let's carefully analyze this question:

Original sentence:

Trade **tensions** (**A**) between major **businesses** (**B**) have disrupted supply chains, forcing **economies** (**C**) to diversify their sourcing strategies.

Step 1: Meanings of the highlighted words

1. Tensions (A)

- *English:* Strained relations or stress between groups or nations.

- *Hindi:* तनाव; मतभेद या असहमति की स्थिति।

- *Example:* Political tensions between the two countries escalated after the summit.

2. Businesses (B)

- *English:* Companies or organizations engaged in trade or commerce.

- *Hindi:* व्यवसाय; व्यापार या वाणिज्य में संलग्न संगठन।

- *Example:* Many small businesses struggled during the economic downturn.

3. Economies (C)

- *English:* Systems of production and trade within a country or region.

- *Hindi:* अर्थव्यवस्थाएँ; उत्पादन और व्यापार की प्रणाली।

- *Example:* Emerging economies are growing faster than developed nations.

Step 2: Identifying the issue

- “Trade tensions between major **businesses**” sounds slightly off contextually because *trade tensions* are typically **between nations or economies**, not businesses.

- Similarly, “**forcing economies**” makes sense only after we identify that **trade tensions** are between **economies**, not companies.

- So, **A** (tensions) and **C** (economies)** need to be swapped** to fix both the contextual and logical flow.

Step 3: Rearrangement — (A-C-B → C-A-B or A-C-B? Let's check)

Correct rearrangement: **ACB**

Sentence after rearrangement:

Trade **economies** (**C**) between major **tensions** (**A**) have disrupted supply chains — incorrect grammatically.

Now check **A-C-B**:

Trade **tensions** between major **economies** have disrupted supply chains, forcing **businesses** to diversify their sourcing strategies.

Step 4: Explanation

- “**Tensions between major economies**” — Correct collocation (commonly used phrase).

- “**Forcing businesses**” — Makes logical sense, as companies adjust their sourcing due to international trade tensions.

- “**Economies**” fits as the entities between which tensions exist.

Corrected sentence:

Trade **tensions between major economies** have disrupted supply chains, forcing **businesses** to diversify their sourcing strategies.

- *Hindi:* बदलना, संशोधित करना।

- *Example:* Climate change is altering weather patterns across the world.

3. Distribution (C)

- *English:* The way something is spread or arranged.

- *Hindi:* वितरण, फैलाव या वितरण की व्यवस्था।

- *Example:* Unequal income distribution leads to social inequality.

Step 2: Identifying the problem

The original sentence structure is grammatically **incorrect** because:

- The phrase “**leading marine ecosystems**” is wrong — “leading” must be followed by “to,” indicating a result or consequence.

- Similarly, “**altering to shifts**” is also incorrect — the correct phrasing is “**altering marine ecosystems**,” not “altering to shifts.”

So, the words **A (leading)** and **B (altering)** need to **swap positions** for correct grammar and logical sense.

Step 3: Rearrangement (B-A-C)

Corrected sentence:

Rising ocean temperatures are **altering marine ecosystems**, **leading to shifts in species distribution** and coral reef degradation.

Step 4: Explanation

- “**Altering marine ecosystems**” → correct because ecosystems are *changed* or *modified* by temperature rise.

- “**Leading to shifts in species distribution**” → correct cause-effect expression; rising temperatures *lead to* changes in species patterns.

- Logical flow: cause (rising temperatures) → effect (ecosystem changes and species shifts).

Step 5: Example for clarity

Example:

“Deforestation is altering forest habitats, leading to loss of biodiversity.”

This mirrors the corrected structure — *altering (changing)* → *leading to (causing)*.

Final Answer: (b) BAC

Correct sentence:

Rising ocean temperatures are **altering marine ecosystems, leading to shifts in species distribution** and coral reef degradation.

S65. Ans.(c)

Sol. Let's analyze the question carefully:

Original sentence:

Although turnout **influenced** (A) in the recent election, misinformation campaigns still **behavior** (B) public perception and voter **increased** (C).

Step 1: Meanings of the highlighted words

1. Influenced (A)

- *English:* Affected or had an impact on something.
- *Hindi:* प्रभावित किया, असर डाला
- *Example:* Social media heavily influenced public opinion during the campaign.

2. Behavior (B)

- *English:* The way a person acts or conducts themselves.
- *Hindi:* व्यवहार, आचरण
- *Example:* His calm behavior under pressure impressed everyone.

3. Increased (C)

- *English:* Became greater in size, amount, or number.
- *Hindi:* बढ़ा हुआ, वृद्धि हुई
- *Example:* The company's profits increased significantly this year.

Step 2: Identifying the grammatical issue

In the original sentence:

- “Although turnout **influenced** in the recent election” is **incorrect**, because *turnout* (subject) cannot be followed directly by a past participle without an object — it should be “Although turnout **increased** in the recent election.”

- “Misinformation campaigns still **behavior** public perception” is **incorrect**, since *behavior* is a noun, but a verb is needed. The correct word here is “*influenced*.”

- The word “**increased**” at the end (“voter increased”) doesn't make sense; it should be “voter **behavior**.”

Hence, the correct sequence must swap A (**influenced**), B (**behavior**), and C (**increased**) as C-A-B.

Step 3: Correct rearrangement (C-A-B)

Corrected sentence:

Although turnout **increased** in the recent election, misinformation campaigns still **influenced** public perception and voter **behavior**.

Step 4: Explanation

- “**Turnout increased**” — grammatically correct, as *turnout* (subject) takes the verb *increased* to describe what happened.

- “**Campaigns influenced public perception**” — correct cause-effect structure; *influenced* works as the verb showing impact.

- “**Voter behavior**” — correct noun phrase meaning “the way voters act.”

The sentence is now grammatically correct and contextually meaningful.

Step 5: Example for clarity

Example:

“Although sales increased last quarter, misleading advertisements still influenced customer behavior.”

This mirrors the same structure and logic.

Final Answer: (c) CAB

Correct sentence:

Although turnout **increased** in the recent election, misinformation campaigns still **influenced** public perception and voter **behavior**.
