LEARNING OUTCOMES

- ◆ Understand the accounting implications if death of a partner takes place at any date during the accounting period. Learn to record this transaction and how to record payment of profit to the Executor of the deceased partner for part of the accounting year.
- ◆ Be familiar with other accounting treatments in case of death of partner which are similar to the explained in case of retirement of a partner.

UNIT OVERVIEW

5.1 INTRODUCTION

Business of a partnership firm may not come to an end due to death of a partner as it is known as Reconstitution of Partnership. Other partners shall continue to run the business of the firm. The problems arising on the death of a partner are similar to those arising on retirement. Assets and liabilities have to be revalued and the resultant profit or loss has to be transferred to the capital accounts of all partners including the deceased partner. Goodwill is dealt with exactly in the way already discussed in the case of retirement in the earlier unit. Treatment of joint life policy will also be same as in the case of retirement. However, in case of death of a partner, the firm would get the joint policy value.

5.2 RIGHT OF OUTGOING PARTNER IN CERTAIN CASES TO SHARE SUBSEQUENT PROFITS

As per provisions of Section 37 of the Indian Partnership Act., "Where any member of a firm has died or otherwise ceased to be a partner, and the surviving or continuing partners carry on the business of the firm with the property of the firm without any final settlement of accounts as between them and the outgoing partner or his estate, then, in the absence of a contract to the contrary, the outgoing partner or his estate is entitled at the option of himself or his representatives to such share of the profits made since he ceased to be a partner as may be attributable to the use of his share of the property of the firm or to interest at the rate of six per cent per annum on the amount of his share in the property of the firm.

Provided that whereby contract between the partners an option is given to surviving or continuing partners to purchase the interest of a deceased or outgoing partner, and that option is duly exercised, the estate of the deceased partner, or the outgoing partner or his estate, as the case may be, is not entitled to any further or other share of profits; but if any partner assuming to act in exercise of the option does not in all material respects comply with the terms thereof, he is liable to account under the foregoing provisions of this section. This way, the outgoing partner has the option to receive, interest at the rate of 6% p.a. or the share of profit earned on the unsettled amounts for the period till his dues are settled by the firm in the absence of any contract made to the contrary".

It may be noted that the outgoing partner is not bound to make election until the share of the profit that would be payable to him has been ascertained.

For example, A, B and C are in a partnership business-sharing profits and losses equally. C died on 31st October, 2021. The capitals of the partners, after all necessary adjustments stood at ₹ 50,000, ₹75,000 and ₹ 1,20,000 respectively. A and B continued to carry on the business further without settling the accounts of C. Final payment to C is made on February 1, 2022. The profit made during the period of three months amounts to ₹ 28,000.

Under Section 37 of the Partnership Act, C can exercise any of the following two options.

- (i) Share in subsequent profits of firm:

Profit made—₹ 28,000

$$C's \text{ share} = 28,000 \times \frac{1,20,000}{2,45,000} = ₹ 13,714$$

- (ii) Interest at 6% p.a.

$$1,20,000 \times \frac{6}{100} \times \frac{3}{12} = ₹ 1,800$$

Since, (i) option is beneficial for C, he will necessarily go for his proportionate share in profits.

5.3 AMOUNT PAYABLE TO LEGAL REPRESENTATIVES OF DEAD PARTNER

When the partner dies the amount payable to him/her is paid to his/her legal representatives. The representatives are entitled to the followings:

- (a) The amount standing to the credit to the capital account of the deceased partner
- (b) Interest on capital, if provided in the partnership deed upto the date of death;
- (c) Share of goodwill of the firm;
- (d) Share of undistributed profit or reserves;
- (e) Share of profit on the revaluation of assets and liabilities;
- (f) Share of profit upto the date of death;
- (g) Share of Joint Life Policy.

Legal representatives are liable for:

- (i) Drawings
- (ii) Interest on drawings
- (iii) Share of loss on the revaluation of assets and liabilities;
- (iv) Share of loss that have occurred till the date of his/her death.

Calculation of profit upto the date of death of a partner.

Such Profit is calculated through P&L Suspense account. After ascertaining the amount due to the deceased partner, it should be credited to his Executor's Account.

If the death of a partner occurs during the year, the representatives of the deceased partner are entitled to his/her share of profits earned till the date of his/her death. Such profit is ascertained by any of the following methods:

- (i) Time Basis
- (ii) Turnover or Sales Basis

(i) Time Basis

In this case, it is assumed that profit has been earned uniformly throughout the year. For example:

The total profit of previous year is ₹ 2,25,000 and a partner dies three months after the close of previous year, the profit of three months is ₹ 31,250 i.e. $1,25,000 \times 3/12$, if the deceased partner took 2/10 share of profit, his/her share of profit till the date of death is ₹ 6,250 i.e. $₹ 31,250 \times 2/10$

(ii) Turnover or Sales Basis

In this method, we have to take into consideration the profit and the total sales of the last year. Thereafter the profit up to the date of death is estimated on the basis of the sale of the last year. Profit is assumed to be earned uniformly at the same rate.

Example

Arun, Tarun and Neha are partners sharing profits in the ratio of 3:2:1. Neha dies on 31st May 2022. Sales for the year 2021-2022 amounted to ₹ 4,00,000 and the profit on sales is ₹ 60,000. Accounts are closed on 31 March every year. Sales from 1st April 2022 to 31st May 2022 is ₹ 1,00,000. The deceased partner's share in the profit upto the date of death will be as follows.

Profit from 1st April 2022 to 31st May 2022 on the basis of sales:

If sales are ₹ 4,00,000, profit is ₹ 60,000

If the sales are ₹ 1,00,000 profit is: $60,000/4,00,000 \times 1,00,000 = ₹ 15,000$

Neha's share = $15,000 \times 1/6 = ₹ 2,500$

Alternatively profit is calculated as

Rate of profit = $\frac{60,000}{4,00,000} \times 100 = 15\%$

Sale upto date of death = 1,00,000

Profit = $1,00,000 \times 15/100 = ₹ 15,000$

The above adjustments are made in the capital account of the deceased partner and then the balance in the capital account is transferred to an account opened in the name of his/her executor. The payment of the amount of the deceased partner depends on the agreement. In the absence of an agreement, the legal representative of a deceased partner is entitled to interest @ 6% p.a. on the amount due from the date of death till the date of final payment

5.4 SPECIAL TRANSACTIONS IN CASE OF DEATH: JOINT LIFE POLICY

In case of Partnership, Partners generally get Joint Life Policy (JLP) in name of all partners. If partner expires, then partners are entitled for share in JLP.

Method 1: If Joint Life Policy does not appear in the Balance Sheet, then the firm will gain on the death of a partner. For example, A, B and C are in partnership sharing profits and losses at the ratio of 5:3:2. They took a Joint Life Policy of ₹ 1,00,000. Now, if A dies, the firm will receive ₹ 1,00,000 from the insurance company.

The journal entries will appear as follows:

		₹	₹
(i)	Bank A/c To Joint Life Policy A/c (Policy value received from the insurance company on A's death)	Dr. 1,00,000	1,00,000
(ii)	Joint Life Policy A/c To A's Capital A/c To B's Capital A/c To C's Capital A/c (Joint Life Policy written off and credited to old partners in Profit Sharing Ratio)	Dr. 1,00,000	50,000 30,000 20,000

Method 2: If Joint Life Policy appears in the Balance Sheet at surrender value, then the firm will gain on the death of a partner. For example, A, B and C are in partnership sharing profits and losses at the ratio of 5:3:2. They took a Joint Life Policy of ₹ 1,00,000 which is appearing in the Balance Sheet at the surrender value of ₹ 10,000. Now, if A dies, the firm will receive ₹ 1,00,000 from the insurance company.

The journal entries will appear as follows:

		₹	₹
(i)	Bank A/c To Joint Life Policy A/c (Policy value received from the insurance company on A's death)	Dr. 1,00,000	1,00,000
(ii)	Joint Life Policy A/c To A's Capital A/c To B's Capital A/c To C's Capital A/c (Joint Life Policy written off and credited to old partners in Profit Sharing Ratio)	Dr. 90,000	45,000 27,000 18,000

Method 3:

If Joint Life Policy appears in the Balance Sheet at surrender value along with Joint Life Policy Reserve, then the firm will gain on the death of a partner and reserve will be distributed among partners. For example, A, B and C are in partnership sharing profits and losses at the ratio of 5:3:2. They took a Joint Life Policy of ₹ 1,00,000 which is appearing in the Balance Sheet at the surrender value of ₹ 10,000, along with JLP reserve. Now, if A dies, the firm will receive ₹ 1,00,000 from the insurance company.

The journal entries will appear as follows:

		₹	₹
(i)	Bank A/c To Joint Life Policy A/c (Policy value received from the insurance company on A's death)	Dr. 1,00,000	1,00,000
(ii)	Joint Life Policy A/c To A's Capital A/c To B's Capital A/c To C's Capital A/c (Joint Life Policy written off and credited to old partners in Profit Sharing Ratio)	Dr. 90,000	45,000 27,000 18,000
(iii)	Joint Life Policy Reserve A/c To A's Capital A/c	Dr. 10,000	5,000

5.6 SPECIAL TRANSACTIONS IN CASE OF DEATH: PAYMENT OF DECEASED PARTNER'S SHARE

The basic distinction between retirement and death of a partner relates to finalisation of amount payable to the Executor of the deceased partner. Although, revaluation of goodwill is done in the same way as it has been done in case of retirement, in addition, the executor of the deceased partner is entitled to share of profit upto the date of death.

For example, A, B and C are in partnership sharing profits and losses at the ratio of 2:2:1. A died on 15th April, 2022. The firm closes its books of account as on 31st December every year. So the executor of A is entitled for 3½ months profit. If A's share is immediately paid off then profit for 2021 can be taken as base for calculating 3½ months profits in the year, 2022. If M/s. A, B & C earned ₹ 96,000 in year 2021, then 3½ months profit is ₹ 28,000. A's share comes to ₹ 28,000 × 2/5 i.e. ₹ 11,200.

Journal entry is:

Profit and Loss Suspense A/c *	Dr. ₹ 11,200
To A's Capital A/c	₹ 11,200
(Share of A 3½ months profit in 2022 is transferred to his Capital Account on death)	

*At the end of the year 2022, the Profit & Loss Suspense A/c will be transferred to Profit and Loss A/c.

This would enable these entities to communicate their financial performance and financial position in standardised formats thereby enhancing their consistency and comparability. The said format of financial statements is being given as Annexure – II at the end of the chapter for awareness of students. It may be noted that this format does not form part of syllabus and has been given here for the knowledge of students only.

SUMMARY

- ◆ The problems arising on the death of a partner are similar to those arising on retirement. Assets and liabilities have to be revalued and the resultant profit or loss has to be transferred to the Capital Accounts of all partners including the deceased partner. Goodwill is dealt with exactly in the way already discussed in the case of retirement.

- ◆ Treatment of joint life policy will also be same as in the case of retirement. However, in case of death of a partner, the firm would get the joint policy value. The only additional point is that as death may occur on any day, the representatives of the deceased partner will be entitled to the partner's share of profit from the beginning of the year to the date of death. After ascertaining the amount due to the deceased partner, it should be credited to his Executor's Account.
- ◆ If the death takes place during the accounting period, the Executor of the deceased partner is entitled to have a share of profit upto the date of death based on the profit earned in the immediately preceding year or some other agreed basis. For this purpose, the deceased partners' Capital Accounts is credited and Profit & Loss Suspense Account is debited.
