**Directions (1-5):** Study the following information carefully and answer the below questions

Six persons- I, J, K, L, M, and N are sitting on the circular table facing the center. They are using different types of bags- Birkin, Kelly, Clutch, Saddle, Duffel, and Hobo but not necessarily in the same order.

L sits second to the left of the one who uses Hobo bags. The one who uses Hobo bags and the one who uses Clutch bags are immediate neighbors. J sits opposite to the one who sits immediate right of I. J neither uses Hobo nor Clutch. The one who uses Birkin sits second to the left of I. The one who uses Saddle sits immediate left of the one

who uses Duffel. L neither uses Duffel nor Kelly. Either J or M uses Kelly. N does not use Clutch.

**1) Who among of the following person sits immediate right of I?**

- A. The one who uses Birkin
- B. The one who sits second right of K
- C. The one who sits immediate left of L
- D. The one who uses Hobo
- E. K

**2) Which of the following bag does K use?**

- A. Clutch
- B. Hobo

## Circular Seating Arrangement for Bank Prelims Exam – Set 1

- C. Duffel
- D. Kelly
- E. Saddle

3) Which of the following combination is true?

- A. N- Clutch
- B. K- Kelly
- C. J- Birkin
- D. M- Saddle
- E. I- Hobo

4) Which of the following statement is true?

- I) M sits second to the left of the one who uses Saddle
- II) K sits immediate right of I
- III) I uses Duffel
- A. Only II
- B. Only I and III
- C. Only III
- D. All I, II, and III
- E. None of these

5) Who among the following person uses Hobo bag?

- A. The one who sits immediate left of L
- B. The one who sits second to the right of M
- C. K
- D. The one who sits third to the right of I
- E. N

**Directions (6-10):** Study the following information carefully and answer the below questions.

Eight persons – P, Q, R, S, T, U, V, and W are sitting at a circular table and facing inside. Each person likes different numbers viz.- 8, 13, 15, 19, 22, 24, 31, and 32. All the information is not necessarily in the same order. The consecutive alphabetically named persons are not sitting together.

S sits third to the right of Q, who likes 15. One person sits between the one who likes 15 and P. The person sitting third to the right of P sits second to the left of the one who likes 24. T sits immediate right of the one who likes 19. The one who likes 19 sits facing U, who likes 22. R likes a number which is 4 more than the number liked by Q and sits second to the left of W. W sits facing the one who likes a number which is 5 less than the number liked by T. V likes a prime number.

6) What is the position of T with respect to the one who likes 31?

- a) Immediate left
- b) Second to the right
- c) Third to the left
- d) Immediate right
- e) None of these

7) Who among the following person likes 24?

- a) The one who sits second to the left of U
- b) S
- c) The one who sits third to the right of T

## Circular Seating Arrangement for Bank Prelims Exam – Set 1

- d) P
- e) None of these

8) How many persons are sitting between V and the one who likes 32 when counted to the left of V?

- a) As many persons are sitting between Q and R when counted from the left of R
- b) Three
- c) Four
- d) As many persons are sitting between R and the one who likes 24 when counted from the right of R
- e) None of these

9) If S is related to the one who likes 13, similarly R is related to the one who likes 15, then who among the following person is related to the one who likes 22?

- a) S
- b) The one who sits immediate right of R
- c) V
- d) The one who likes 32
- e) None of these

10) Which of the following statement is/are not true?

- a) The one likes 32 sits immediate right of S
- b) Two persons are sitting between W and V when counted from the right of V
- c) R likes 19
- d) U sits immediate right of Q
- e) None of these

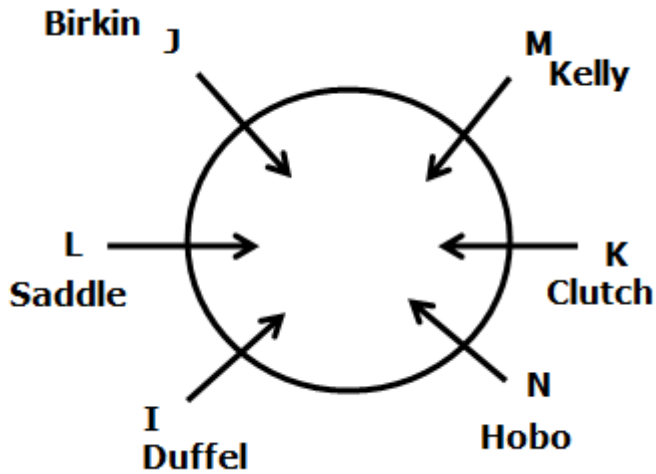

### ANSWER WITH EXPLANATION

Directions (1-5):

- 1) Answer: D
- 2) Answer: A
- 3) Answer: C
- 4) Answer: B
- 5) Answer: E

Final Arrangement

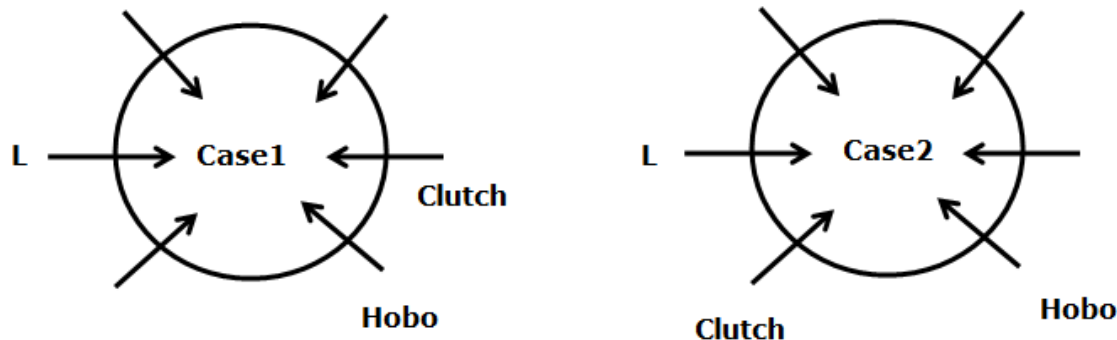

## Circular Seating Arrangement for Bank Prelims Exam – Set 1

We have,

- L sits second to the left of the one who uses Hobo bags.
- The one who uses Hobo bags and the one who uses Clutch bags are immediate neighbors.

From the above condition, there are two possibilities.

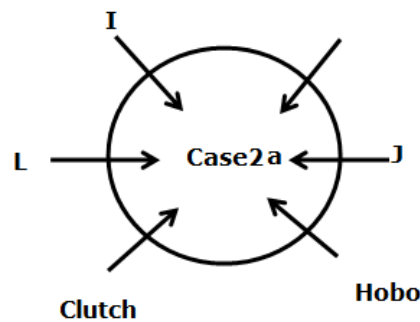

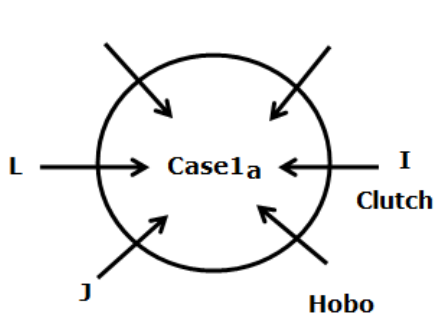

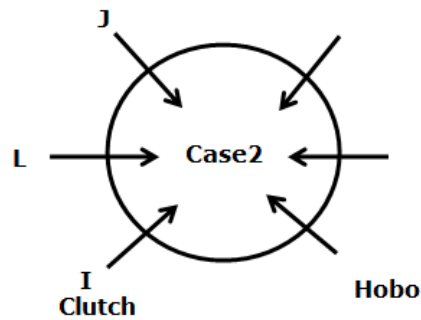

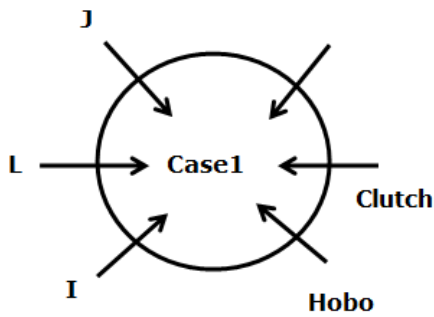

Again we have,

- J sits opposite to the one who sits immediate right of I.
- J neither uses Hobo nor Clutch.

From the above condition, there are four possibilities.

## Circular Seating Arrangement for Bank Prelims Exam – Set 1

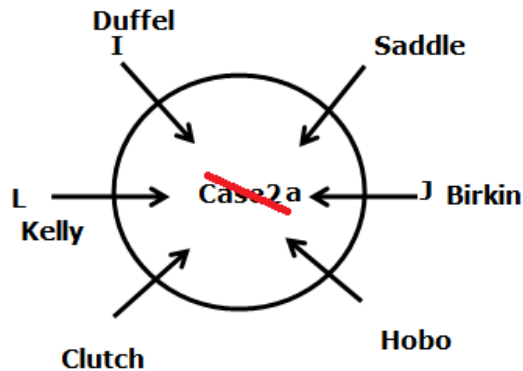

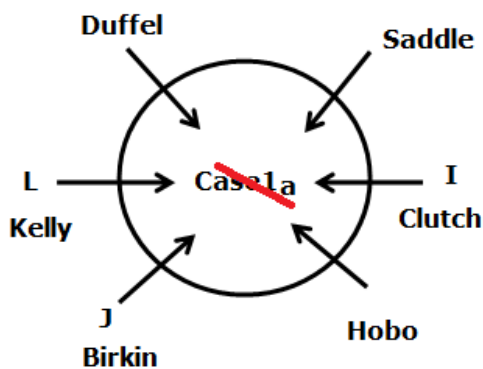

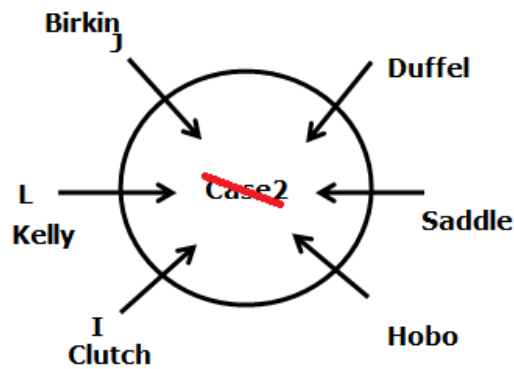

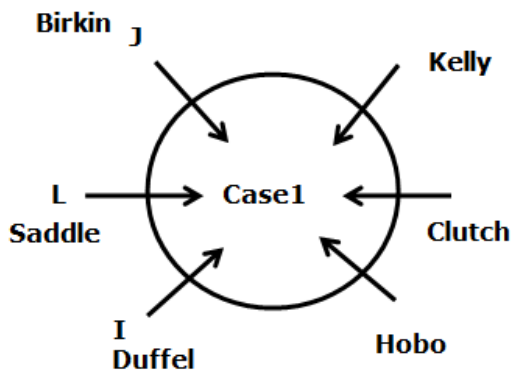

Again we have,

- The one who uses Birkin sits second to the left of I.
- The one who uses Saddle sits immediate left of the one who uses Duffel.
- L neither uses Duffel nor Kelly.

From the above condition, Case2, case1a, and case2a get eliminated.

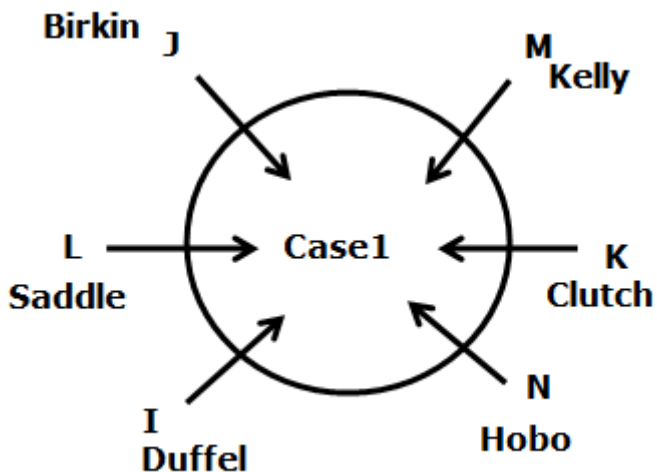

## Circular Seating Arrangement for Bank Prelims Exam – Set 1

Again we have,

- Either J or M uses Kelly.
- N does not use Clutch.

From the above condition, case1 shows the final arrangement

Directions (6-10):

6. Answer: B

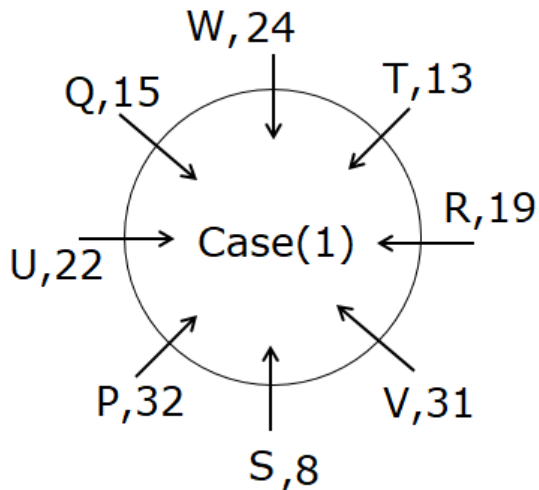

## Circular Seating Arrangement for Bank Prelims Exam – Set 1

7. Answer: A

8. Answer: D

9. Answer: B

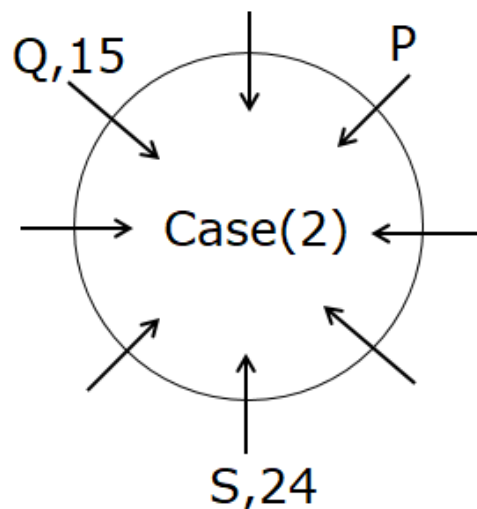

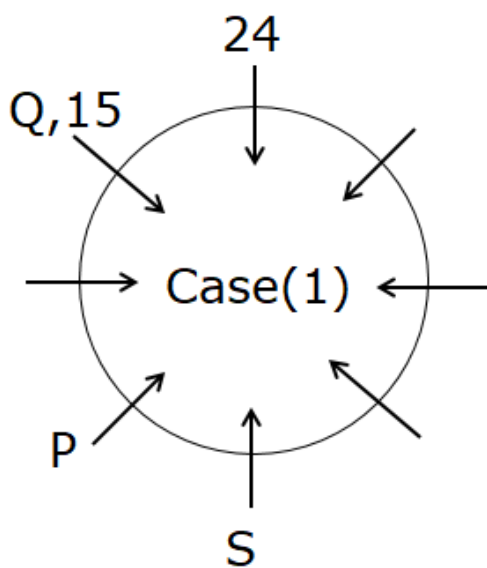

10. Answer: A

We have:

- S sits third to the right of Q, who likes 15.
- One person sits between the one who likes 15 and P.  
That means, in case (1) P sits immediate left of S, in case (2) P sits third to the right of S.
- The person sitting third to the right of P sits second to the left of the one who likes 24.

Based on the above given information we have:

Again, we have:

- T sits immediate right of the one who likes 19.

## Circular Seating Arrangement for Bank Prelims Exam – Set 1

- The one who likes 19 sits facing U, who likes 22.  
That means, in case (1) T sits second to the left of Q, in case (2) T sits immediate left of Q.
- R likes a number which is 4 more than the number liked by Q and sits second to the left of W.  
That means, case (2) is not valid.
- W sits facing the one who likes a number which is 5 less than the number liked by T.  
Since, only possible combination of numbers is (8, 13), thus S likes 8, and T likes 13.
- V likes a prime number.  
That means, V likes 31, and P likes 32.

Based on the above given information we have:

Case (2) is not valid as R must like 19.
