31-12-2025	JP& BP + Theory +Revision		MTP 2			Revision		MTP 2			

INSTRUCTIONS

1. Don't waste too much time on planning, focus on execution
2. Remember this planner has been made with an assumption that your classes are getting completed by 30th September, so don't feel demotivated if its not getting completed on 30th September
3. Watch Revision videos only for the chapter which you cannot recall, don't rely on too much videos
4. Follow QB for all subjects after revising concepts
5. Don't compromise your sleep, keep yourself hydrated and fresh all day by taking small breaks
6. Don't just memorize everything, instead, dedicate 3-4 hrs daily to the specified topics, going through them as if you'll recall the key points during the preparation of your main exams
7. Write tests as scheduled so that you have enough writing practice & time management for your final exam
8. Stay positive, always remember "why you started"
9. Don't leave chapters thinking it is less important
